PRESIDENT'S MESSAGE By Bill Allen, ISCYRA President

As the 2007 season winds down in the northern hemisphere, it has become more and more apparent to me that our class is feeling some pressures that primarily relate to our Olympic status. The nature of the Olympics has changed dramatically from the days when a handful of guys would gear up for a couple months, qualify for the games, sail in the Olympics, and return to their recreational sailor status.

Now we have over 30 countries in the Star Class alone seeking to qualify for the games, and over 70 interested countries in 11 medal events worldwide. This has resulted in a huge increase in the time and monetary commitment by many individuals seeking Olympic medals. The Star Class has always sought to remain as an Olympic class, and will continue to work toward inclusion in the 2012 games and beyond. This is our history, this is who we are, and I believe, this is what most of our members want us to be.

Being an Olympic class has created some issues relating to our class rules and operations. We have agreed to participate in an ISAF Combined World Championship every 4 years, and we have had some ISAF involvement in selection of our race officials. The first has been a fairly minor adjustment, and the second has actually helped the quality of our race management.

Of more concern to me is the possibility that some of our members have started to feel that the Star Class is "only for the pros." Many of us have always loved the challenge of competing against the best, but at top events now, the level of competition is such that the weekend sailor struggles to make the top half of the fleet, and <u>never</u> sails in clear air! This

reality may be intimidating to some, and unfortunately may result in reduced participation.

Speaking for the weekend sailor, maybe *we* need to refocus our goals a bit, and concentrate on local events, district championships, super-regional Star class events, and Silver Stars. Maybe the Gold Star and ISAF Grade 1 events will be dominated by the elite sailors, often professionals. I understand that this approach represents a significant change from the days when the fleet champions compete in the World's. But with the realities involved in remaining an Olympic Class, this may be a good approach to satisfy both weekend and elite sailors.

I was able to attend both 2007 North American Silver Star events, and I can say they were two of the most enjoyable regattas I have attended in recent years. The competition at these events is serious, but lacks the intensity (and anxiety) of some Grade 1 events, and the wonderful **camaraderie** is really what made these regattas so special.

ISAF is developing a World Cup Series for Olympic classes that will likely include Grade 1 events (MOCR, Kiel, Breitling, Hyeres, Princess Sophia, Sail Melbourne, and perhaps others) and a World Cup final. This circuit will be of interest primarily to aspiring Olympians, with ranking points and perhaps prize money.

The Star Class will continue to provide world-class events at the local, regional, and national level that will provide great competition and enjoyment for the weekend sailors. Of course, the elite sailors are more than welcome. The Starboat is so much fun to sail that I will not be surprised if many of the Olympic aspirants sail class events as well.

So although 2007 is not yet in the books, it's not too early to plan for 2008. The five Silver Star regattas are all at outstanding venues, and should be excellent events. At the local level, we should try to focus on 3-4 events in each district, and maximize participation, and <u>fun</u>, at these.

In November, several class officers will be in Portugal for the ISAF vote concerning Olympic events for 2012. We will try to keep "Mens Keelboat" as an Olympic event. The specific class selection will be in November, 2009. Hopefully, the Star Class can continue to be one of the few classes that serves both the elite sailor and the weekend warrior.

As always, I welcome your thoughts and comments on these important issues.

Good Sailing Bill

Originated 1911, Organized 1922 July/August, 2007 NOMINATIONS

by Diane Dorr, Executive Secretary

Positions up for election this year are:

International Vice President for Western Hemisphere for a 4-year term, 1 January 2008 - 31 December 2011.

International Vice President for Eastern Hemisphere for a 4-year term, 1 January 2008 - 31 December 2011.

International Treasurer for a 4-year term, 1 January 2008 - 31 December 2011.

2 Vice Commodores for a 1-year term, 1 January 2008 - 31 December 2008. [Per Star Class Rule 13.4, these 2 elected officers must be from 2 different continents.]

3 Rear Commodores for a 1-year term, 1 January 2008 - 31 December 2008. [Per Star Class Rule 13.4, these 3 elected officers must be from 3 different continents.]

Per Star Class Rule 13.1 in the LOG, nominees for the above positions must be nominated by 2 fleets not within the same district.

All District Officers - 1 District Secretary & 1 Assistant District Secretary per district for a 2-year term, 1 January 2008 - 31 December 2009. [Nominees need to be nominated by at least 1 fleet in that district.]

Only a fleet officer can sign & submit a fleet nomination form, so members need to let their fleet secretary know who they would like nominated. Nomination forms will be sent to each fleet secretary with a delegate/proxy form.

ISAF WORLD CHAMPIONSHIP REPORTS

Based on reports by Lynn Fitzpatrick

Cascais – There is a Galaxy of Talent Assembled Here July 1, 2007

(Editor's note: The racing format was that the fleet of 62 Stars was divided into two fleets of 31 boats each for the first six races. The fleets were designated "Blue" and "Yellow" and the list of who sailed in which fleet changed each day. After this the top 31 boats were placed in the "Gold" fleet and the bottom 31 boats in the "Silver" fleet, as shown in the result sheet below.)

The sailing venue in Cascais is incomparable. A 17th century citadel sits up on the point and is surrounded by a café and shop lined promenade at sea level and a modern marina. While all of the Olympic classes have their designated areas along the half-mile long promenade, everyone shares their favorite cafes. There are plenty of ramps and there is a ton of security. Hundreds of colorful RIBs are moored in clusters offshore waiting for their sailing teams to take to the water.

Consistency Accounts for a lot at the Cascais Worlds July 3, 2007, Races 1 & 2

After the first day of racing the 2005 and 2006 World Champions are tied for the lead. Hamish Pepper / Carl Williams and Xavier Rohart / Pascal Rambeau each have 4 points following two races in a split fleet. Working with thirty boat fleets and shorter courses than is usually sailed, Pepper / Williams, Rohart / Rambeau were able to pull off impressive starts, round the first weather mark in first place and extend their leads so that they finished with a notable gap behind them. In fact, Rohart / Rambeau won their race with more than a minute's jump on second place finishers Italians Diego Negri and Gigi Vaile. Sailing consistently, each of today's top ten teams have only single digit finishes.

Are Xavier Rohart and Pascal Rambeau on their way to winning their third Star World Championship in Cascais? July 4, 2007, Races 3 & 4

Xavier Rohart and Pascal Rambeau sailed a stellar 1, 2 today during the third and fourth races. Sunny skies, a four to five foot short swell, chop and a shifty racecourse didn't stop the pair from continuing to rack up impressive results.

Close on the heels of the 2003 and 2005 Star World Champions are Brazilians Robert Scheidt and Bruno Prada. Robert and Bruno have not had a finish out of the top three since the 2006 Miami Olympic Classes Regatta. Some of today's more memorable sites out on the water were watching Portugal's Alfonso Domingos and Bernardo Santos and two time Star World Champion skipper Alexander Hagen and crew Frithjof Kleen come off a pin end start, catch the first shift and cross the fleet. The Portuguese fans let out cheers as Domingos / Santos rounded the first weather mark in first place.

Consistency Continues to be the Theme July 5, 2007, Races 5 & 6

Consistency continues to be the theme in the Star Class at the ISAF Sailing World Championships 2007 in Cascais, Portugal. Robert Scheidt and Bruno Prada, Ian Percy and Andrew Simpson, Xavier Rohart and Pascal Rambeau sailed two first, two second and two third place finishes, respectively today. Scheidt / Prada lead the regatta with 8 points following their discard. Two points behind them are the Frenchmen and the Englishmen follow by another two points.

An outgoing tide flowing against the swell and the wind made for difficult conditions for the start of the first race. With the benefit of a general recall and an abandoned start, Percy / Simpson nailed the start at the boat end of the line and led a small pack, which included Irishmen Maxwell Treacy and Anthony Shanks, to the right side of the course. Percy / Simpson led around the top mark with Mateusz Kusznierewicz and Dominik Zycki following close behind. Pepper / Williams and Rohart / Rambeau had slightly better than mid-fleet mark roundings. While Percy / Simpson favored the right side of the course on the beat and the left side on the run, Rohart / Rambeau and Pepper / Williams played the shifts up the middle of the course and scrambled back to third and seventh place finishes, respectively. When asked about his recovery to a third place finish, Xavier Rohart sighed and said that "there were a lot of very good people in the yellow fleet today." Rohart sails conservatively and rarely bangs corners, so he was more than satisfied with his finishes. Why fix something when it's not broken?

Robert Scheidt and Bruno Prada were on fire today. The Brazilians led around every mark except for the final weather

mark of their second race of the day. As they sailed up the right side of the course Freddie Lööf and Anders Ekström went on the attack. The Swedes sailed through the Brazilians lee with yet another right hand shift at the top of the beat. Scheidt / Prada took advantage of a little more pressure on the right during the run and a wind shadow that the Danish team of Benny Andersen and Morgens Just threw on Lööf / Ekström, to skate into the lead and finish twenty seconds ahead of the Swedes and Danes.

(Editor's note: July 6 was the lay day. Following this the Star fleet was divided into the "Gold" fleet and the "Silver" fleet for the rest of the event.)

Trying Conditions for All out on the Star Course at the 2007 ISAF Sailing World Championships July 7, 2007, "Gold" fleet race 7

The loud moan that Mateusz Kusznierwicz let out as he tried to approach the first weather mark from the port tack lay line and watched Ian Percy and a number of other boats coast around it, said it all. There was no need for translation. The winds and the current frustrated the Race Committee and the sailors alike. The fleet followed the Race Committee halfway to Lisbon before the winds turned on enough to start a race. Unfortunately the wind did not settle down for a while. It took an hour of fits and starts and going from being fully hiked to standing up in the boat searching for breeze, before the first race was called for both the Gold and the Silver Fleets.

Following a general recall, the second start of the Gold fleet was held up so that the fleet's start would not interfere with the Silver fleet's run and leeward mark rounding. As the wind died, the natives got restless and started to make a lot of noise. Within minutes, both races were abandoned. So, with many hours on the water, only one race was sailed in the Gold fleet.

John Dane commented that "you hope that you have your horseshoe with you for good luck" out on that course. Dane's win was not solely due to good luck. He used the knowledge that he gained through a general recall and abandoned start down at the pin end. Dane / Sperry played the current so that they set up high, dipped below the line and executed a perfect pin end start.

News from the Star fleet in Cascais July 8, 2007 "Gold" fleet's races 8 & 9 "Silver" fleet's races 7 & 8

"Gold" fleet news: The Gold fleet started their first race nearly a leg and a half after the Silver fleet's first start. Wind conditions throughout the day were up and down. Yesterday's extreme light air did not return to the course, but crews had to pay attention to shifts, microbursts and puffs that didn't necessarily move down the course as fast as expected. The regatta leaders were fairly evenly spread across the line for the first start. Current within the washer machine made starting conditions difficult. The heartbreaker came for Mateusz Kusznierewicz and Dominik Zycki when the pin's anchor rode got caught between their skeg and rudder. By the time that they parted company with the pin, they trailed the fleet by 200 yards and about 2 minutes. As the top of the Gold fleet got mixed up with the Silver fleet Xavier Rohart and Pascal Rambeau took the lead. Murray / Palfrey hung tough throughout the race and Robert Scheidt and Bruno Prada moved their way from twelfth around the first weather mark to seventh around the second weather mark to a 30-second lead by the time they reached the third weather mark. Their biggest gain came on the second run. Hamish Pepper and Carl Williams and Mark Reynolds and Hal Haenel also worked their way up through the fleet.

Current played a major factor during the many attempted starts of the Gold fleet's second race. As you can imagine, the black flag came out and there were two general recalls under the black flag. Boats sent home for the day included: Pickel / Zycki, Grael / Ferreira, Dane / Sperry, Marazzi / Christen, Miller / Voigt, Stanjek / Koy and Szabo / Scott. At one point during the attempted starts, many competitors were so hot and the wind was so light that they took their spray tops off. By the time the actual race was started, they were suited up and ready for heavy air conditions again.

Probably the most aggressive starter on the line, Percy / Simpson rounded the weather mark first followed by Rohart / Rambeau, Bromby / McNiven and Kusznierewicz / Zycki. Percy / Simpson extended their lead throughout the race and they were so far ahead that the rest of the fleet could use them as a great judge of the conditions up to weather. Their win was as close to a horizon job as there has been in this regatta. Scheidt / Prada had a fantastic final run and passed Kusznierewicz / Zycki to take second. Rohart / Rambeau finished fourth and Negri / Viale finished fifth.

"Silver" fleet news: From the time that Irishmen Maxwell Treacy and Anthony Shanks crossed the line until the last boat was scored in the Silver fleet's first race of the day, over ten minutes passed. Treacy / Shanks led a pack of five boats around the first weather mark as a port tack header hit the rest of the fleet that was nearing the top of the leg.

Treacy / Shanks led around the course and were followed by Argentineans Julio Labandeira and Enrique Della Torre throughout the race. The Ricks, Rick Merriman and Rick Peters were third in the race. As the wind dropped off during the last two legs, and the fleet got overrun by the top half of the Gold fleet positions behind the leaders got scrambled up a lot.

The Silver fleet had a long day. Not only did they have to wait around for the Gold fleet to start their second race; the wind went light during their final race. To top it off, they sailed into the harbor a little before 9:00 PM in 40 knots of breeze! Maxwell Treacy and Anthony Shanks sailed snake eyes for the day. The Swiss team of Daniel and Beat Stegmeier finished the day with a 5, 2. Merriman / Peters scored a 3, 8. Benny Andersen and Morgens Just rolled a pair of sixes.

(And with this the ISAF Worlds ended. The medal races scheduled for Monday, July 9, were blown out with winds reaching 35 knots. Robert Scheidt and Bruno Prada won the Star event with 15 points, followed by Xavier Rohart and Pascal Rambeau in second and Iain Percy / Andrew Simpson in third.)

4TH DISTRICT GREAT LAKES CHAMPIONSHIP

July 6-8, 2007 Illinois Valley Yacht Club

Peoria, Illinois

Tom Londrigan, Jr. (LS) won his 4th Blue Star this past weekend, this time with crew Matt Pederson (WLM).

Tom and Matt sailed very consistently (their throw-out was a 5!) and fended off the daily clinics hosted by Greg Smith & TC Belco on Day 1, and Rick Brethorst & Arthur Anosov on Day 2. See the Results page for more.

Thanks to Al Covington, the IR Star Fleet and the IVY Club on hosting a great event.

Special thanks to Beth Hansen-Brethorst and her Race Committee for doing a fantastic job. Square lines, fair courses. Exactly the way it should be.

4TH DISTRICT GREAT LAKES CHAMPIONSHIP

Dancing in the Minefield J. RULON MILLER SERIES July 7-8, 2007 by Tom Price

Picking your way up to weather out there was treacherous, sometimes exhilarating and sometimes devastating. Each race was won by a different boat and the top boats (except for steady John Manderson) had 1st or 2nd places followed by a plunge down the fleet.

A light, spotty and unusual SE breeze was all we were going to get on Saturday and the RC courageously and competently managed to conduct two challenging races. All 13 Star boats left the line after an hour's wait for the fitful breeze to cover the course. John Manderson figured it out though, followed by Tom Price and Will Swigart who made late race gains by venturing far left.

The second race started in a more promising breeze from the same quadrant. Max velocity was about 6 kts. The runs were hot and noisy as the slack rigs shook in the slight motorboat chop. It was a great time to see the speed differences in windward and leeward heel and when to transition. Crews splayed out across the foredecks as if on a "time out" from their skippers. John MacCausland finished in the lead, followed by John Manderson.

Sunday's forecast was for a developing thermal but unfortunately, later in the day. After a 2 hour delay enough wind had filled in to conduct a race. It was a bit east of what usually indicates a sea breeze but we came to play with what we have. On the last beat, the right finally worked as Keith Donald, Henry Filter and Tom Price roared in on the new wind. Both crew on the high side for the first time in the weekend!

John Manderson was the overall winner, showing consistency with a 1, 2, 4 finish, followed by Keith Donald in 2nd and Henry Filter in 3rd both tied with 14 pts. Tom Price followed closely with 15 pts and John MacCausland with 16 (who fell into the minefield after an excellent first day). The tricky conditions made for an interesting if challenging regatta. July is a uniquely "Chesapeake Bay" month to run sailboat races and only Star boats could have had such viable racing in the light conditions.

J RULON MILLER SERIES

2007 KITSILANO INVITATIONAL July 7-8, 2007 English Bay Fleet

The Kitsilano Invitational welcomed 13 Stars from English Bay and Puget Sound. Saturday's 8-10 westerly was far more shifty than normal with some gains to be had on either side, not just the usually favored left. Sunday brought even more of a challenge as the SE wind veered to the south and went light by the end of the day. The 30 degree shifts with puffs and lulls provided a significant heroes or zeros effect. Heads out sailing by Larry Whipple allowed him to handily win the regatta. Next up in English Bay is the District 6 Championship and then the 2007 Star Class North American Championship.

1ST DISTRICT CHAMPIONSHIP Cedar Point Y.C.

July 13-15, 2007

Twenty-one boats from 5 of the 6 active 1st District fleets participated in the 1st District Championship, held at Cedar Point Y.C. in Westport, CT. At the request of the organizing committee, Star Class Course Format B was used even though there were less than 30 boats participating.

While 5 races were scheduled, with 2 on Friday and 2 on Saturday, the wind was not wholly cooperative and only 4 races were run.

Two races were run on Friday in relatively light winds out of the southeast. Fotis Boliakis / Mike Nichol sailed most consistently and ended up with a 1, 2. The son-and-father team of Tomas and Luis Hornos scored a pair of fours to come in second for the day.

Saturday began in a very light southerly. The first race proved to be a bust, since no one rounded the windward mark before the 40-minute time limit. This was just as well, because shortly thereafter the wind shut down completely. There followed some hours of waiting around, during which there was quite a bit of socializing between the various boats. Carroll McCallum and Trevor Nederlof in particular were more in the water than out and had a good time swimming from boat to boat. When the wind finally did come in a nice course 3 race was run in a southeasterly. However, during the final leg upwind there was a substantial right shift which put some boats nicely ahead and others in the cheap seats. After a difficult first day Ben Cesare and Bjorn Wisecup were able to put it all together to win race 3.

Sunday also began in a fairly light wind, but this time out of the southwest. In fact, the wind was so light that a couple of boats didn't make it to the starting line by the time the race was started. However, luckily for these boats the wind dropped and once again the time limit of 40 minute for making it to the windward mark was exceeded. Again, there was some period of waiting about but finally the promised wind came in. In terms of wind strength the final race proved to be the best of the series, beginning in about 12 knots and ending in about 18. Ched Proctor and Witold Gesing led most of the way and won the race. Fotis Boliakis / Mike Nichol came in 7th which was enough to earn them the Blue Star. The other winners were:

Green Star: Ched Proctor Junior: Tomas Hornos Master (50-59): Ched Proctor Grand Master (60-69): Joe Bainton EGM (70-infinity): Jack Button Marshall Brown Trophy (1st race): Fotis Boliakis Walter Brachtel Trophy (last race): Ched Proctor

Special thanks to Guy Gurney for organizing the event, and Rich Gordon and Nelson & Mary Stephenson cooking up a storm for both Friday and Saturday evening dinners.

With a turnout of 21 boats in the District Championship the 1st District may send four boats as District representatives to the 2008 Worlds.

6TH DISTRICT CHAMPIONSHIP & NORTH AMERICAN TUNE-UP Vancouver Royal Y.C. July 28-29, 2007 based on reports by Brad Nichol

Vancouver is a beautiful city on the English Bay with 1000+ meter mountains rising straight out of the water, capped with snow. The tide rips in and out of the bay causing currents up to 5.8 knots at max ebb.

The District 6 Championship / North American Tune Up Regatta was held on July 28-29 in some very difficult conditions. On Saturday three races were run in an easterly breeze under downtown Vancouver. The race committee split fleet into the 6th District contestants and visitors. Ross Macdonald was able to post three bullets in the 6th District

competition. In the visitor fleet Andy Horton / Brad Nichol posted a 4, 3, 3 to lead the day with Lars Grael / Marcello Jordao close behind after he won the last two races of the day.

On Sunday the two fleets waited for the sea breeze to fill and got one race off with breeze from the opposite direction (west). The race was interesting because the whole strategy came down to deciding to tack over or under the second freighter moored in the course area. Horton / Nichol decided to go under and won the race clinching first place in the tune up regatta. Lars Grael and Marcello Jordao were second followed by Jim Buckingham and Scott Pack in third.

Ross Macdonald won the District event with 4 firsts sailing with the new secretary of the Crew Union, Jim Vandermolen. Jimmer has a new respect for crews world wide and vows to never drag over the side of a Star boat again.

THE NORTH AMERICAN CHAMPIONSHIPS August 1-4, 2007

Vancouver Royal Y.C. based on reports by Brad Nichol and Peter Jefferson

July 31 began with the opening ceremonies on the front lawn of the Royal Vancouver Yacht club at 500 PM. The commodore Brian O'Sullivan welcomed some 120 sailors and enthusiasts. Some of the sailors had just come off the water after experiencing a practice day with a brisk Westerly which gave them a taste of what was to come. The Commodore then welcomed the Mayor of Vancouver Sam Sullivan who also a sailor in his own right, felt right at home with all the assembly. The Mayor made a point of the fact that sailing is for everyone. He was enthusiastically received and received a generous applause. ISCYRA President Bill Allen then spoke and applauded the venue. He made a wonderful reference to the support that the sponsors had given and commented that this kind of support he had seen only at world events. We were then all treated to a very fine reception which the Club is famous for. The finest of hors d'oeuvres and the sailor's beverage were served.

The North American Championships started Wednesday, August 1, with six races scheduled though Saturday. In addition to the Silver Star at steak, this is the second to last US Olympic Team Trials Qualifier where the top five US boats earn a spot. The fleet is packed with top sailors including six Olympic Medalists from three countries and an array of World Champions from multiple classes. It should be an interesting week of sailing.

Day 1, Races 1 & 2: The North American Championships kicked off with a beautiful day of sailing. Two races were sailed in 6-10 knots out of the west under perfectly sunny skies. The freighters moored around the racecourse were the talk of the day as they hung like flags in the confusing English Bay current. Normally the tide comes in and the tide goes out but when 400 foot hunks of steel lay across the bay, balanced by the current and the wind, it's hard to tell which way the water is moving. If you started and sailed straight for 3 minutes in either race today you would hit a freighter. So, one of the big calls was to start at the pin and go behind the freighter or to start at the boat and go above the freighter.

Ross Macdonald / Tyler Bjorn continued to show the fleet how to navigate the bay posting a 4th place in the first race, followed by a commanding win in the second. One point behind the local hero was Eric Lidecis and Mike Marzahl with a pair of third place finishes and Andy Horton and Brad Nichol in third with a 1, 6 to start the regatta.

After the races on Day 1, the sailors were greeted on the one design dock which had a numbered place for every trailer which matched the bow number. Naturally the greeting included the sailor's favorite beverage which was the norm for each day. Wednesday night the city of Vancouver put on the Celebration of Lights for the sailors and also the public in general.

The same evening John and Lynn Newton, long time members of RVYC and both international sailors in their own right, hosted a reception for the Olympic past and present sailors which included a number of the Star Sailors who were medalists along with the sponsors of the Star NA's. The assembly learned how the club is currently producing almost 40% of the sailors in Canada out of some 270 clubs and sailing organizations in Canada. These Royal Van members are in the high performance and Olympic sailing category. The theme of the reception was "sailing for all" and was attended by the Mayor of Vancouver. The volunteer aspect of the clubs programs were highlighted and we were able to gain some insight on how important training volunteers are to manage races and to try and achieve the degree of professionalism that paid race people provide.

Day 2, Race 3: After an hour and of half of sailing in this 3rd race of the North American Star Championships hosted by the Royal Vancouver Yacht Club, the lead changed 3 times, and the top 10 finishers changed positions on the course 5 times. Winds were shifty at the start but settled into 8 to 9 knots from the northwest. After $1\frac{1}{2}$ hours and 5 miles on the course, the top 5 boats were no fewer than 40 seconds apart. Leading the first of the two upwind legs was Andy Macdonald / Brian Fatih, finally relenting to a shift that allowed Horton / Nichol to rocket forward and take first place.

Day 2, Race 4: Halfway through Race 4, the tide started to come into English Bay. Racers scrambled to get to the Jericho shoreline to stay out of the current. Here is where local knowledge pays off big time. And not to be denied, Ross Macdonald led the fleet up the shore, flirting with the Locarno Sandbanks where numerous boats got too close and ended up on the sand. For an interesting perspective is the following from the Nichol report:

"For the second race all we could think of was our host "Fox". He told us all we needed to know about racing in Vancouver when there was a flood tide was to race to the beach and when you see the kids in the water, keep going until they run away and then tack. Until today we weren't even sure which beach he was talking about. When the flood tide started and the windward mark was put in place for the second race it became quite clear which beach we would be on. Literally at one point we were "on" the beach. Luckily for us it was only a touch and go in the middle of a tack and it was worth it. We were in the middle of a three way tacking dual as the front pack made it up to the windward mark. Ross Macdonald was leading, we were 2nd and Lars Grael was third. All three of us were fighting up the shoreline trying to keep our noses out of the current, but also keeping an eye when to break out into the "river" to get to the windward mark. We got out of phase with Ross early in the tacking dual. This made Ross always the first boat to push out into the current as we tacked up the shore. He went out one time and took a loss so we put the bow right in on the beach scarring away a few kids and actually touching the bottom. It was just enough of a gain to lee-bow Ross when he tacked back to starboard. But now we had to fight off Lars who also had pushed into the beach one extra time. We had just enough space to cross Lars and hip up on the layline while Ross was forced back out into the current. We were fortunate to make it out of that corner and around the mark in first, continuing on for another win. Ross finished second and Brian Ledbetter was third.

"When we came in we realized our grounding was not that bad as there were a few stories of people jumping out of their boats to push them off the sand. All in all it was a tricky day. Light air and current are a difficult combination even without 400 foot tankers and 50 great teams. So we feel quite fortunate to have such a good day."

Thursday night the sailors were transported to Larry and Anne Warshawski's beautiful home at Spanish Banks which again was hosted entirely by our local Star Association.

Day 3, Race 5: The morning began with some light rain, overcast skies and a light breeze from a completely different direction. It took the Race Committee a little extra time to figure out where to put the course because there were 2 new freighters which arrived during the night. This brought the total up to 7 freighters which made the bay a little tight.

Once the race started the right side became heavily favored and it was that way all the way around the track. Most of the top teams were on that side and posted good finishes. We miss judged the current advantage on the right and found ourselves way back in the pack. George Szabo / Andrew Scott won the race easily with Rohan Lord / Miles Addy came in second.

Friday night the Kitsilano Yacht Club was the venue for some mid-week prizes and a wild BC Salmon Barbecue again in a venue that would make your mouth water.

Day 4, Race 6: The following description of the last races is from the Nichol report: "The last race of the Star North American Championships proved more exciting then any medal race we have sailed in the last two years. Going in we led Ross Macdonald by one point, George Szabo by three, Mark Mendelblatt by six and Brian Ledbetter by seven. The race committee moved the course in towards the club and beach and the course was covered with spectators on British Columbia Day. Going into this race to win the regatta we could be beat by Ross, but without any boats between us and we had to be in the top five. We could also be behind Szabo with 2 boats between us and still win. So, with that in mind we went into the starting sequence.

Just before the start Ross made an attempt to sail us away from the line, but we were able to get under him and make it back to the line for a pin boat start. After the start we put the bow down and headed for the beach for current relief. When the fleet made it to the shore we tacked up the edge dodging docks, mornings, kayakers, and dinghy sailors from three clubs. We were able to lee bow Ross a few times and push him out into the current, but this put us back a few places.

"We made it to the weather mark in ninth, ahead of Ross but Szabo was leading the regatta in second place. So we spent the next 4 legs focusing on passing the boats ahead of us trying to get into the top 5 and close to Szabo. Slowly we were able to pick off a few boats here and there to get back into it. By the finish we had worked our way up to second place behind Andy Macdonald with Star class rookie Jud Smith in third.

"Our second place finish was good enough to win the regatta with Ross in second overall and Szabo third. The English Bay Star Fleet and Royal Vancouver YC put on a spectacular awards dinner which was capped off by a fireworks competition between Canada, Spain and China."

Saturday night, back at the Royal Vancouver Yacht Club, the club put on its famous buffet. Music provided by a 3 piece group, on going video of the racing for the entire week, the presentations on video, amid an ice sculpture 3 feet high of two stars and their crews hiking, and the backdrop of the mountains and sea was truly overwhelming. Bill Allen invited the assembly to next year's North Americans. With this the prizes were awarded which reflected the culture of British Columbia. The regatta concluded but not the friendships made.

SUNAPEE OPEN

August 4-5, 2007 Lake Sunapee Y.C. based on a conversation with Bob Carlson

While 49 boats were finishing up the North Americans in Vancouver another 29 boats assembled at Lake Sunapee to race in the Sunapee Open.

This year's Lake Sunapee Open was sponsored by Bacardi Rum. Janet Maizner of Bacardi was on hand to help with the event. On Friday evening there was the welcome party at the Chiarella's house. This featured fireworks which Bob Carlson and Joe Carroll lit off.

Saturday saw nice racing in winds out of the west. Both races were run on Star Class Course 2. At the end of the day Rodrigo Meireles / Blake Mariner and Tomas / Luis Hornos were tied on points, with 5 points each.

On Saturday evening the famous Sunapee barbeque dinner was served. David Cook and Mike Wood got the fires stoked and cooked the steaks. Added to this was corn-on-the-cob and other delicious goodies. Sunday's race was run in wind out of the north-northwest. The wind was rather puffy, causing at least one knot-down. The course was Star Class Course 3. Local boats David Ivey / Greg Meyer and David Cook / Mike Wood took first and second. John Manderson / Roman Gotsulyak, who were in third place at the end of racing on Saturday, came in third in the final race to win the regatta. Saturday's leaders, Team Hornos and Rodrigo Meireles / Blake Mariner came in 6^{th} and 7^{th} to place 2^{nd} and 3^{rd} in the regatta.

At the award ceremony a nice touch was that personalized towels were awarded. Aside from the over-all winners the special category winners were:

Novice: Tomas Hornos Master: Ron Sandstrom Grand Master: Bill Watson Exalted Grand Master: John Chiarella

Once again a great vote of thanks to Robin Cook who ran the Race Committee with her usual efficiency.

(Results on page 12.)
