PRESIDENT'S MESSAGE

Since 1977, as an 18-year-old crew, I have been in awe of the Star and those who sailed her. The World Championship in 1978 was at my home club, St. Francis Yacht Club. 99 boats were on the starting line and the kings of sailing were all there. I knew then that I would never leave the Star, but I never thought that one day I would be President of the greatest class in sailing. It is my honor to serve as the 16th President of the International Star Class and I intend to give back all that I can.

I was so impressed by the dignity and presence of our Presidents and the seriousness with which they took their responsibility, by our events.... the Opening Ceremonies, the raising of the national flags, daily Perpetual Trophies, the final prize giving dinners, not to mention the racing....Blackaller, Conner, Schoonmaker, Melges, Buchan, Petterson, North, Knowles, to name a few. I remember wearing a blazer and tie, not because someone told me to, because I wanted to. I remember sewing on my first ISCYRA patch for that World Championship in 1978....I was 19. Little did I know that I was beginning a career in sailing and that I would never have had the success I had were it not for the Star; the sailors who mentored me, the technical knowledge that I gained, the racing strategy that I learned and the fraternity to which I suddenly belonged.

2023 was a great year in many ways. Our membership grew modestly, and we had a positive financial result. Two young German sailors won the World Championship in Scarlino, Italy, products of U30 support from their home nation. The Vintage Gold Cup, a celebration of our history, welcomed more than 30 boats and past President Lars Grael won the event against a strong field of World Champions and Olympic medalists.

As the year closed, we launched the Star Education and Access program (SEA). The mission of the SEA program is to provide the opportunity of access to our class to sailors who are interested. Thanks to six generous families, we are able to offer this program in south Florida and named it *SEA by Schoonmaker* in honor of a great Star sailor who continues to make an impact by giving back! We hope to expand SEA to other countries soon.

In 2024, I intend to work with our fantastic leadership group in three areas: financial health, building fraternity, and offering access to new Star sailors. We will celebrate the 97th Bacardi Cup in March and our World Championship will come back to the San Diego Yacht Club for the 7th time.

While our past is Gold plated, I am looking forward to working of you with all to ensure our future is even brighter.

President
International Star Class

A handwritten signature in black ink, appearing to read 'Lars Grael', written over a light grey circular background.

ISCYRA INSIGNIA

Emblem

International Officers

ISCYRA and Fleet officers shall wear their insignia on cap, and on sleeves of yachting coat or mess jacket. On sleeve, the larger star is placed at the base of the trefoil and the smaller star or stars within its loops (except the reverse for District Secretary). In addition to the trefoil and one stripe of braid used by all members, ISCYRA officers shall use one additional stripe of black braid for each small gold star which appears above the larger star (for example, Vice Commodore, 2). Retired ISCYRA officers retain braid but not stars.

Honor Awards

Respecting the valued traditions of the Star Class, all Honor Award sailors are requested to display their highest award on their mainsail.

Gold for World Champions, Silver for Continental, Blue for District, Green for Novice.

2nd Series award only if 4 or more participants; 3rd Series award if 7 or more; Daily 1st, 10 or more 2nd and 3rd, 15 or more.

INTERNATIONAL STAR CLASS LEGACY FOUNDATION

Created by Star sailors, the Legacy Foundation will create an endowment and scholarships to help support the Star Class' continued growth.

Harry Nye Trophy

The Harry Gale Nye Trophy recognizes an individual's outstanding contribution to the ISCYRA. The trophy is named for Harry Gale Nye (1908-1987), who was twice Star World Champion (1942 and 1949) and served as Commodore of the Star Class from 1955 to 1963. He also won the Bacardi Cup and the Cup of Cuba three times each. A graduate of Yale University, Nye was for many years the owner of Murphy & Nye Sailmakers, Chicago, USA.

Honoring the Past, Leading the Future

The Star Class honored Star Class suppliers for their 40 year's of service to the Star Class. Both the Lillia and Folli families have produced the highest quality of competitive boats to members for over three decades and Massimo Tagliaferri of Emmeti Spars has been the solo mast builder for the Stars. It was only fitting to honor them all as we celebrated the World Championship in Italy.

Nye Trophy Winners

2023	Lillia & Folli Families, Massimo Tagliaferri	2005	John Koopman
2022	Eddie Cutillas	2004	Mario Caprile

HISTORY OF THE STAR CLASS

The Star Class was founded at Port Washington, Long Island, in 1911. Initially 22 Stars were built. Fifteen went to owners at the American Yacht Club in Rye, New York, and the remainder to other clubs on Western Long Island Sound. Since then the rig has been improved and modernized several times, but the hull design remains unchanged.

In January 1922, the Star Class Yacht Racing Association was created at a meeting in New York City. A constitution and a set of by-laws were adopted, and five fleet charters granted. This was the first one-design association, and with far-sighted leadership was nursed through its formative years into the successful international organization that its members enjoy today. With over 160 local fleets in 27 countries, it is considered the world's greatest one-design racing class. Approximately 8,000 Stars have been built to date (1989), all unified under the umbrella of the I.S.C.Y.R.A.

International officers include the President, Vice Presidents, Secretary, and Treasurer. Class policy is set by the International Governing Committee, with representatives from Europe, North America, South America, and Australia. Some tasks are handled by special committees such as the Administrative, Judicial, Development, Technical, and Measurement committees. There are also fleet captains and secretaries, district secretaries and continental vice presidents, all performing various local functions.

A monthly newsletter "Starlights" is published, along with the annual year book, "The Log". These publications contain descriptions and accounts of club events, and more importantly, race results, class rules and regulations, specifications, and other by-laws of the Association.

The Bug rig and first Star rig was the sliding gunter, presumably English. It consisted of a gaff (or yard) almost as long as the boom, which peaked up to more than half its own length above the top of the mast. To give you some idea of the length of the gaff, it was about 3 feet longer than the present boom. It looked quite different from the average gaff rig of those days, which had a shorter gaff that set at perhaps a 30% angle to the mast. The first Stars had only one set of shrouds. The mainsail was laced to the gaff and the boom and the luff was lashed to old fashioned wooden mast hoops, which were supposed to slide up and down the mast but often jammed.

In 1921 the short Marconi was made optional. Owners were rather skeptical about this, because an experiment a few years before on Star No. 46 proved a failure. The mast was the combined length of the old mast plus the distance the gaff had extended above it. Because good skippers had always kept the old gaff peaked up so high that it was practically parallel to the mast, the mainsail could be used on the short marconi by simply putting slides on the luff. The boom remained unchanged. The track and slide idea was so convenient that it was immediately applied to the boom also. From then on skippers began to own sails of different draft and bent them on just before a race. The rig varied considerably. Some used long wooden spreaders and others none at all. This rig was retained for nine or ten years, and in case of some fleets for even longer.

The tall Marconi was made optional by the Star class in 1930. It was obvious that the Star was beginning to look pretty seedy and out of date. Those intending to have new Stars built, both abroad and in America, did not own old mainsails and were not interested in that angle of it. Conill's arguments, however, were the deciding factor. A tentative tall Marconi rig was demonstrated by Frank Robinson during the World's Championship at New Orleans in October of 1929. The mast was lengthened by almost five feet and the boom shortened, but the annual meeting, which adopted the rig in principle, insisted that the sail area remain the same. A committee consisting of Earnest Ratsey, Prescott Wilson, Frank Robinson and Larry Bainbridge worked out the new specifications. They are the same specifications that apply today. This was the starting signal for the really worldwide development of the Star class on all continents.

Spar flexing, is an operation. It was the fourth major phase in Star development, but it was no more a change of rig than the advent of the roller boom. Spar diameters were slightly reduced, especially that of the boom. The latter was trimmed from about its mid-point to a bar across the center of the cockpit. Spar diameters and method of rigging had always been optional. Only the length of spars and size of sails were regulated. This maintained uniformity in design, but gave the skipper enough leeway to use his ingenuity and this policy has been responsible for the continued improvement in Stars. Flexible spars can be credited to Walter von Hütschler. Leading skippers in the Americas began to experiment with flexible spars in 1938. This process opened up an entirely new field in draft control. It is the only completely new theory, of any real scientific value, connected with the aerodynamics of sail, which has been introduced since the Marconi rig.

SEA Program

Officially launching its first chapter, the SEA (Star Education and Access) program kicked off with great enthusiasm during the 2024 Bacardi Cup Regatta! We were fortunate to be able to support 11-U30 teams for the event. This was due in large part to the generosity of the Ding Schoonmaker family foundation and therefore this chapter is named; SEA by Schoonmaker.

Not only were we able to provide boats, but the SEA program also held a free clinic with Frithjof Kleen during the week of the Midwinters in February, and 2 round table

discussions during the Bacardi Cup.

The SEA program gives individuals and teams access to the Class by lowering the barrier of entry through boat grants, providing maintenance and sailing mentors, transportation assistance, and sails if desired, for the duration of the grantee's term. Grants are awarded for single events and longer term campaigns. Each application is evaluated and boats are awarded based on availability of the fleet and the outlined categories on the program page.

The SEA program has a new page on the Class website and can easily be accessed via the banner icon or by clicking on the SEA Program at the top. The SEA by Schoonmaker is the first installment of this wonderful program and we're already excited at the prospects of expanding this initiative!

A special thank you again to the Schoonmaker Family, the Star Class, and everyone who has helped to make this initiative a reality so quickly. A special thanks to John MacCausland for preparing all the boats so they were fit to compete and getting them to Miami. Lastly, a thank you to all of our members for providing input on what would help the class grow and the vision of our Class President, Paul Cayard!

We hope to expand to more locations around the Star World in the coming years.

Dear Star Sailors,

I would like to express my sincere gratitude for the trust you have placed in me as your Commodore. It is a great honor for me to succeed our esteemed John Chiarella, who unfortunately passed away last year. John was not only an outstanding sailor but also an inspiring figure who wholeheartedly dedicated himself to our Class.

John, you will be dearly missed!

John was particularly passionate about nurturing young sailors under the age of 30, and I am certain he would have been overjoyed to see two young talents, Max Kohlhoff and Ole Burzinski, clinching the World Championship title at the recent event. Similarly, at this year's Bacardi Cup, he would have enthusiastically welcomed the large number of U30 sailors from around the world and admired their team spirit, which undoubtedly enriches our Star class.

My primary goal is to ignite and foster enthusiasm for the Star boat among young sailors. I firmly believe that the future of our Class lies in the next generation, and I am committed to supporting and inspiring them in every way possible.

A special thanks is due to Paul Cayard, who stepped in as President at short notice and leads our Class with great dedication and foresight. Paul, your dedication is admirable, and I sincerely thank you for your efforts!

But my gratitude also extends to all others who tirelessly work behind the scenes for our class and make the organization of numerous events possible. I wish you all a wonderful season filled with exciting regattas, and I look forward to meeting many of you there.

Warm regards,

Christoph Gautschi
Commodore of the International Star Class

BUILT ON A CHAMPION SPIRIT

Ever since Lowell built his first set of star sails in California, North Sails has been committed to building the fastest sails on the planet. We are constantly striving to improve designs for every wind range and condition. Our results speak for themselves and our class experts can help you with any questions you may have, please don't hesitate to contact us. See you on the race course.

SWITZERLAND

2023 WORLD CHAMPIONSHIP

September 16-24, 2023

Scarlino, Italy

The 2023 Star World Championship in Scarlino, Italy, will definitely be remembered for its unexpected sailing conditions.

The whole Mediterranean Sea was hit that week by a low pressure system that influenced the normal sea breeze that is so typical of that area. A couple of days were cancelled for not having enough wind and another one was cancelled for rough wind and waves – which in the short time the fleet went out, were actually great fun.

As it often happened, the Star World Champions were crowned only on the very last race on the final day and they were as happy as startled, but dreams come true when you work hard for them. Max Kohlhoff and Ole Burzinski won the 2023 Star World Championship last September in Marina di Scarlino, Tuscany, after three years of dedication, training, and passion for sailing and for the Star boat. They started the Championship with a bullet and ended it with a golden star affixed to their mainsail, a lifelong dream for the 200+ Star sailors racing at the 2023 Worlds in Scarlino. For some, this was their 20th attempt. This year, it was Max and Ole's turn to win.

"Since we started three years ago, our goal was always to win the gold star to put on the mainsail. We believed it was possible, but it was definitely hard, hard work... and doing it here, on our second attempt, is unbelievable!" commented Max Kohlhoff right after coming off the water. "It's hard to find words for this special moment. We had some great regattas this year, often finishing second, but finally, this time it clicked, and it was the reward for our hard work".

The final day of the 2023 Star World Championship started with a different breeze from the north and saw two races. The first one started around 11:15 AM with 7/8 knots of wind speed, but it varied throughout the four legs, with a gentle but constant shift to the right. The 30-year-old German team Max Kohlhoff and Ole Burzinski and the Belgian/Dutch team Manu Hens and Joost Houweling had a great start and rounded first and second at the top mark. Kohlhoff / Burzinski took over Hens / Houweling on the last downwind leg, won the race, and became the provisional overall leaders due to a poor race by the Swiss Pete Eckert with the Portuguese crew Frederico Melo and an even worse one by Diego Negri and Alessandro Sodano (ITA): after race five, the discard rule came into play, so all three teams were still in the hunt for the title ahead of race six.

For the last race, the wind came even more from the right, 050 degrees, and the wind speed varied from as little as 5 knots to as much as 13. The best at reading it were the Irish Peter O'Leary and Steve Milne, even though the first at both the top mark and the gate were the Americans Doug Smith and Brian O'Mahony. Negri / Sodano and Eckert / Melo finished eighth and 12th, respectively, which was just enough to keep them both on the 2023 Star World Championship podium: the Swiss/Portuguese team won silver, and the Italians

took bronze.

"We had a terrific week, we sailed really well, very consistently, but today was our worst day, a very difficult day, very shifty. It always looked good, I never had bad feelings, but it was either no wind or gusts coming from the other direction. We just had something missing, so yes, it's bittersweet, but also so good!" said Piet Eckert. "It's a tricky day, a little disappointing, of course, after starting the day as leaders, but our goal was to make the top 10. We had never made the top 10 in our previous three World Championships, so finishing second is fantastic, even though we came out today to win. Congratulations to Max and Ole; they did amazing today!" added Frederico Melo.

"Last year, I started the World Championship without sails, this time without my crew... Sergio Lambertenghi had a little accident to his foot, and the day before coming here, he called it off. Luckily, Alessandro was ready to step in after just a couple of days of training together this summer. This week was racing but also training at the same time, as I was teaching him how to do things for the first time on the boat. So, finishing third feels even more amazing, and it makes me think that I really know this boat well!" commented Diego Negri. "Many thanks to Diego for giving me this opportunity. It came at the very last minute, and I was so excited to join him and join the Star Class," added Alessandro Sodano.

The 2023 Star World Championship closed with the prize-giving at the Yacht Club Isole di Toscana, as tradition states. It will be remembered for the crazy weather, the long waits, some frustration, and the fear of not making the five mandatory races to assign the title. Still, it will also be remembered for the excitement of having two new young Star World Champions, emerging from a successful U30 program run by Arnd Glunde in the North of Germany. This is a sign of hope for a Class that's more than 100 years old, which has seen great legends of the sport raise the 100-year-old trophy and can continue to produce champions.

2023 WORLD CHAMPIONSHIP

September 16-24, 2023

TIM PARKMAN PERPETUAL TROPHY

Awarded to the winner of the last race of the World Championship. (Up through 1971 the World's was a 5 race series and this trophy was given to the winner of the 5th race. In the 1972 series the trophy was awarded to the winner of the 5th race, John Albrechtson, rather than winner of the 6th and last race, Willi Kuhweide. Since 1973 the winner of the 6th race is awarded this trophy.)

Rules of the ISCYRA

(updated January 2024)

1. **Name** The name of the Association shall be the International Star Class Yacht Racing Association (ISCYRA).

2. **Insignia** The emblem of the Star Class shall be a five-pointed red star.

3. **Object** The object of the ISCYRA shall be to promote, develop and govern Star Class racing throughout the world, under uniform rules, and is organized exclusively for charitable, educational, religious, or scientific purposes within the meaning of Section 501 C (3) of the Internal Revenue Code. The ISCYRA is the Association of Star Sailors and shall be the world's pre-eminent One-Design Keelboat Class for International Racing.

4. **Policy** It shall be the policy of the ISCYRA:

4.1. To co-operate with all other sailing organizations, in return for which observance and enforcement of the rules of the ISCYRA are expected.

4.2. To keep the Star Class within the financial reach of the person of moderate means without handicapping ability or encouraging neglect in conditioning yachts.

5. Organization

5.1. Member. The individual shall join through the fleet on whose waters the individual normally sails. The power to accept or reject applications for membership is vested in each fleet, subject to refusal, for cause, by the Class Management Committee (CMC). An individual which was accepted by a fleet is called an ISCYRA Member.

5.2. Fleet. The Fleet, a territorial branch or unit, is open to all eligible persons within its territory, elects its own officers, which must include a Fleet Secretary and a Fleet Captain, and is self-governing in local matters not conflicting with ISCYRA rules. The Fleet Captain of a fleet can be the Fleet Secretary of the same fleet at the same time.

The Fleet Captain and Fleet Secretary are the Fleet Officers of a fleet. A Fleet Captain must be a member of the Fleet and an ISCYRA member (STCR 9). A Fleet Secretary need not be a member of the Fleet. There shall be a Fleet Secretary for each fleet. If there is only a Fleet Captain named, he or she has also the roll of Fleet Secretary.

5.3. Districts. Groups of fleets in distinctive localities constitute Districts.

5.4. Hemisphere. Districts are assigned to two Hemispheres.

5.4.1 Western Hemisphere. There is one Hemisphere which is named "Western Hemisphere":
Located between longitude 20 degrees W and 160 degrees E.
The Western Hemisphere shall include Districts 1-8, 11, 12, 18-21.

5.4.2. Eastern Hemisphere. There is one Hemisphere which is named "Eastern Hemisphere"
Located between longitude 160 degrees E and 20 degrees W.
The Eastern Hemisphere shall include Districts 9, 10, 13-17.

6. Jurisdiction

6.1. The ISCYRA has jurisdiction over all Star activities and the use of properties of the Class.

6.2. The powers of the ISCYRA shall be vested in and administered by its International Governing Committee (IGC).

6.3. The Star Class Association Rules (STCR Part 1 of the Rules of the ISCYRA) and the Rules Governing Star Class Sanctioned Events and Fleet Qualifications (STCR Part 2 of the Rules of the ISCYRA) are binding upon all members and fleets and govern all ISCYRA sanctioned events and fleet qualifications. Each member of the Class agrees:

- a) To be governed by these rules,
- b) To accept the penalties imposed and other action taken under these rules, subject to the appeal and review procedures provided in them as the final determination of any matter arising under these rules, and procedures provided in them as the final determination of any matter arising under these rules, and
- c) With respect to such determination, not to resort to any court or other tribunal not provided by these rules.

7. ISCYRA Responsibilities

- 7.1. Language. The official language of the ISCYRA shall be English.
- 7.2. Obligation. It is the obligation of the ISCYRA to prepare and distribute the forms by means of which the business of the ISCYRA is conducted.
- 7.3. Boat Numbers. The ISCYRA shall assign a permanent official number to each new boat upon application. This number shall be displayed on both sides of the mainsail and cut into or permanently affixed to the keelson or hull. Hull numbers shall be issued only in sequential order.
- 7.4. Liability. The ISCYRA shall not be liable for any debts contracted by its fleets, officers or members other than expenditures authorized by the budget or by written order of the International President, in accordance with the approved budget.

8. Fleet Responsibilities

- 8.1. A new Fleet may be granted a charter upon application to the appropriate Continental First Vice-President by five or more owners or prospective owners of five or more Star boats not within the locality of an organized Fleet.
- 8.2. Application should be filed by the Continental Vice-President with the cognizant International Vice-President. New charters are conditional until ratified at an annual meeting of the ISCYRA.
- 8.3. Each fleet shall hold an annual meeting by the end of January. Each Fleet shall file the date of the fleet meeting with the Central Office by 1 January of that year.
- 8.4. Results of election of fleet officers shall be filed promptly with the ISCYRA.
- 8.5. Each fleet shall collect its members' Association dues or direct its members to join directly with ISCYRA. Fleets that collect dues shall forward these each month to the ISCYRA together with the registration form.
- 8.6. Each fleet shall file an annual report with the ISCYRA during January.
- 8.7. It is the obligation of each fleet to maintain a minimum quota of three life and/or active members in good standing, and a minimum of three eligible Stars.
- 8.8. The charter of any fleet shall be suspended on March 1 for failure to have filed an annual report with dues for at least three such members, listing ownership of at least three eligible Stars, or for other adequate cause. Suspended fleets cannot be reinstated until all requirements of the ISCYRA have been fulfilled. Suspended charters are subject to revocation at an annual meeting of the ISCYRA.
- 8.9. Each fleet shall be responsible:
- 8.9.1. For making suitable provision covering local races.
- 8.9.2. For governing the use of sails.
- 8.9.3. For the measurement of sails, spars, rudders, skegs and positions not included on the Measurement Certificate.

9. Membership

9.1. Classes of membership. There shall be different classes of membership.

9.1.1. Active. An active member may hold office, vote, and skipper a Star boat except as modified in Rules Governing Star Class Events and Racing regardless of age, sex, race or creed. He must be an owner, part owner, designated syndicate representative, or bona fide charterer of a Star. If he ceases to be a Star owner, part owner, designated syndicate representative, or bona fide charterer, he shall retain his membership status until the end of the calendar year. Solely for purposes of qualifying for the right to sail in a Gold or Silver Event pursuant to STCR 29.1, an Active Member shall also have sailed in a representative number of races (at least five) in his own home waters (either Fleet or District) during the 12 months prior to the entry deadline of the event and registered with the ISCYRA with current annual dues paid.

9.1.2. Life. A life member is entitled to all the rights and privileges of an active member, regardless of ownership status, except as modified by skipper eligibility rules. There shall be not more than 100 life members. Applicants must have reached the age of 21 and have been members of the ISCYRA for at least one year. When the quota of 100 is filled, new life memberships will be granted by the Class Management Committee in order of application whenever a vacancy occurs.

9.1.3. Associate. An associate member is a Corinthian non-owner of a Star, who may represent his fleet as a crew. He cannot vote, hold an ISCYRA office, or represent his fleet as a skipper. An associate member can act as a Fleet Secretary.

9.1.4. Isolated. An isolated member is one who meets all the requirements of active or associate membership except that he does not sail in or near the territory of a fleet in good standing. If he owns a Star he is entitled to all privileges of an active member except fleet representation.

When five or more isolated members own and sail Stars in the same locality, they shall apply for a fleet charter or renewal of charter and become active members.

9.1.5. Supporting. A supporting member is one who because of his support and interest in ISCYRA, is elected to membership by the CMC. A supporting member shall have all the rights of an associate member. The CMC has the power to admit different categories of supporting members in relation to their financial support of the Class.

9.1.6. Age Groups

All Star sailors (as described above in 9.1.1 to 9.1.5) are combined in Age Groups depending on their birthday in the current year as follows:

<i>Youth</i>	<i>not reached 20th birthday (< 20 years)</i>
<i>Junior</i>	<i>reached 20th birthday but not reached 30th birthday (>= 20 years < 30 years)</i>
<i>Senior</i>	<i>reached 30th birthday but not reached 50th birthday (>= 30 years < 50 years)</i>
<i>Master</i>	<i>reached 50th birthday but not reached 60th birthday (>= 50 years < 60 years)</i>
<i>Grand Master</i>	<i>reached 60th birthday but not reached 70th birthday (>= 60 years < 70 years)</i>

Exalted Grand Master reached 70th birthday (>= 70 years)

9.1.7. Age Group Responsibilities.

A Youth member is one who has not yet reached his or her 20th birthday. A Youth member shall have all the rights of an Associate member, and in addition may also represent his or her fleet as a skipper. If a Youth or Junior member qualifies for a Gold or Silver level championship he or she shall upgrade to Junior Active membership in order to be eligible to compete. Each Fleet is encouraged to sponsor one Youth or Junior member per year.

A Junior member is one who has not yet reached his or her 30th birthday. A Junior Active member

shall have all the rights of an Active member.

Only Youth and Junior members are eligible to skipper a star during sanctioned J (J-Gold and J-Silver) Events.

9.1.8. Retired. A retired member is one who:

a) is not actively sailing Star at the moment or anymore, or

b) served the class (e.g. a wife of a sailor as a Fleet Secretary) or was related to a member actively sailing Star.

A retired member shall have no rights of an associate or active member, and in addition may also not represent his or her fleet as a crew or skipper. If a retired member wants to qualify for a Star class event, he or she shall upgrade to active or associate membership in order to be eligible to compete. The retired member is informed about all ISCYRA activities only via email or e-Starlight by the Central Office. There are no ISCYRA dues for this membership status.

9.2. A member cannot belong to more than one fleet at a time. A member may change fleets at any time by paying fleet dues to the new fleet. He immediately becomes eligible to compete in local races of that fleet. His eligibility to represent that fleet is governed by Rule 26.

10. ISCYRA Dues

10.1. ISCYRA dues and taxes shall be fixed by the IGC.

10.2. The IGC shall establish the dues each year for active, associate, and isolated members in amounts not exceeding the maximum provided under 10.3. Dues for junior members shall be 25% of Active membership. Dues for Junior Active members shall be 50% of Active membership.

10.3. All members must register annually. Annual dues, payable on registration, shall be established from time to time by the IGC, provided that the dues for each membership category for any calendar year shall not exceed the dues for such membership category during the preceding calendar year by more than 25% unless such increase is approved by majority vote at the annual meeting of the Class.

10.3.1 Dues for junior members under twenty-five years of age shall be a maximum of twenty-five dollars.

10.4. Dues for supporting members shall be not less than dues for active members.

10.5. Annual dues are payable in January in US Dollars in San Diego, California, USA.

10.6. When an application for life membership is approved, the new life member shall make a single payment equal to 20 times the active dues in effect at the time.

10.7. Fleet dues, if any, shall be fixed by the fleet.

10.8. ISCYRA and fleet dues must be paid before a member can be in good standing.

11. ISCYRA Officers

ISCYRA Officers shall be elected annually by mail vote of the membership and serve terms, as prescribed below, beginning in the ensuing calendar year or until their successors qualify.

11.1. International Officers. International Officers, (in charge of ISCYRA business) when elected, shall serve terms of four years, but may serve no more than a total of eight years in such office. The election of the International President and Secretary shall occur at a two-year interval to the election of the International Vice-Presidents and Treasurer. (Such interval was established by an election of the International Vice-Presidents and Treasurer in the year 2003.)

11.1.1. International President. The International President (IP) is the Chief Executive of the ISCYRA.

He shall preside at meetings and serve as chairman of the CMC. He shall rule on procedure and jurisdiction, summarize decisions, and appoint special committees. He together with one International Vice President has sole authority to pay or authorize payment of accounts.

INTERNATIONAL STAR CLASS YACHT RACING ASSOCIATION

The names of former International Presidents, with dates of tenure of office, shall appear in the LOG beneath the name of the International President but in smaller type. All former International Presidents shall retain their title and sleeve stripes, but not their gold stars.

11.1.2. International Vice-Presidents. There shall be two International Vice-Presidents (IVP), not from the same hemisphere.

The International Vice-President having the greater seniority shall perform the duties of the President in his absence. If both IVP's have been in office for the same period of time, the IGC, by ballot, will select the successor.

Each IVP shall supervise the work of the Continental officers and act as chairman of the Continental Committees of his hemisphere. The Vice-Presidents are empowered to grant charters if for any reason a continent is temporarily without Continental officers. Each IVP shall be elected by the entire active membership.

11.1.3. International Secretary. The International Secretary shall keep minutes of meetings and supervise the ISCYRA's system of forms and records for all members.

11.1.4. International Treasurer. The International Treasurer is the custodian of the financial assets of the ISCYRA. He shall keep the ISCYRA's books, financial records, and securities, and shall place funds in a depository approved by the CMC. He shall disburse funds only on the order of the International President.

The International Treasurer shall deliver an annual financial statement at the annual meeting to all members. This annual financial statement will be published exclusively for all members.

11.1.5. International Governing Committee. There shall be an International Governing Committee (IGC) consisting of nine (9) members constituted and having the duties as set forth in Rules 14.1-14.1.6.

11.2. Continental Officers. Continental Officers, when elected, shall serve terms of four years.

11.2.1. First Vice-President. There shall be one First Vice-President for each continent, who is the chief officer of this continent. He shall preside at an annual meeting in the absence of all International officers, officiate at continental events and appoint their race committees and juries, and have general supervision of the work of district secretaries within his continent and adjacent islands. Each FVP, when elected, shall serve terms of four (4) years, but may serve no more than eight (8) years in such office. In calculation of term limit, only periods of time to which the officer was elected (as opposed to periods during which the officer served out another incumbency) shall be counted. First election shall take place December 2013 for First Term of 2014-2018.

11.2.2. Second Vice-President. There shall be one Second Vice-President for each continent, who shall officiate in the absence of the Continental FVP and generally assist him in the performance of his duties.

11.2.3. If a vacancy occurs in the office of First Vice President, the Second Vice President for this continent will automatically fill the vacancy. If a vacancy occurs in the office of Second Vice President, the IGC shall appoint an acting Second Vice President for the remainder of the term.

11.3. Commodores. There shall be one Commodore who shall serve a term of four years, two Vice-Commodores and three Rear Commodores, each of whom shall serve a term of two years. The ranking Commodore present shall be in charge of all social functions, shall be toastmaster at such functions, and shall make the opening address at annual meetings.

Each Commodore, Vice-Commodores or Rear Commodore has the right to participate at any ISCYRA meeting - with no vote in the meeting and no right to speak other than upon invitation.

The names of former Commodores, with dates of tenure of office, shall appear in the LOG beneath the name of the active Commodores but in smaller type. All former Commodores shall retain their title

and sleeve stripes, but not their gold stars.

11.4. All the International Officers, in connection with the International Olympic Committee (IOC) and World Sailing, must work in a coordinate way to maintain the "Olympic Status" for the Class, as pointed out in Rules 23.5.1, 23.5.6 and 40.

12. District Officers

The following District Officers shall be elected bi-annually by mail vote of the active membership of each district and shall serve for the ensuing two calendar years or until their successors qualify.

12.1. District Secretary. The District Secretary (DS) shall have general supervision over all Star activities in his district, be responsible for checking entries in sanctioned events and approving Star race committees conducting championships of his district.

12.2. Assistant District Secretary. The Assistant District Secretary shall assist the DS, serve in his absence as chairman of special race committees, and automatically become DS for the remainder of the unexpired term should that office be vacated.

13. Election Procedure

13.1. Nominations. Each fleet shall be sent nominating forms for Commodores and for International, Continental and District officers at such time as may be ordered by the Class Management Committee, returnable to the Central Office at a specified date.

Commodores must be nominated by at least two fleets.

Continental officers must be nominated by at least two fleets, which must be in different districts if the continent has more than one district.

International officers must be nominated by at least two fleets not within the same district.

District officers must be nominated by one fleet.

If a continent has three or less fleets, nominations may be received from only one fleet.

13.2. Eligibility. A candidate for office, before his name can be placed on the ballot, must certify in writing that he is willing and able to serve if elected. A candidate for the office of International President, Secretary or Treasurer must be in a position to attend Class Management Committee meetings at the Central Office of the ISCYRA at frequent intervals.

A candidate for any office on the ballot must be an active, life or boat-owning isolated member of the ISCYRA and so recorded on the date when nominations for that office close. If any officer's membership is not renewed by March 1, the Class Management Committee shall have the power, thirty days after serving notice upon him to his last recorded address, to declare the said office vacant.

13.3. Voting. Each life, active and boat owning isolated member will receive a ballot on which he shall record his votes. This ballot must be returned to the office of the International Secretary or such place as the Class Management Committee may designate on or before December 10 or the 90th day after the annual meeting, whichever is later. The ballots may be sealed. In the case of joint or syndicate ownership, a boat shall be entitled to only one vote, the vote cast by the first of the two or more names of joint owners appearing on the records of the ISCYRA.

13.4. Election. The ballots shall be opened and counted on December 10 or the 90th day after the annual meeting, whichever is later (or the first weekday following if this date falls on a holiday) at such hour and place as the CMC may designate.

The votes shall be tabulated by three or more inspectors of election, who are not candidates for office and who are, if possible, members of different fleets.

The candidate for each office receiving the greatest number of votes shall be considered elected, except that the two candidates for Vice-Commodore receiving the greatest number of votes, who are

not on the same continent, shall be considered elected, and the three candidates for Rear Commodore receiving the greatest number of votes, not two of whom are on the same continent, shall be considered elected.

Except for members of the IGC, a candidate cannot be elected to more than one Association or District Office at the same time; he/she shall be considered elected to the higher of such office.

14. Standing Committees

14.1. International Governing Committee. The powers of the ISCYRA are vested in the IGC subject to the limitations imposed by these Rules. The IGC shall consist of the International President, the two International Vice-Presidents, two of the four First Continental Vice-Presidents and four Members at Large, each of whom is now or has been an Association officer, designated by the International President to serve for two calendar years.

The International President may designate alternates from each region. An alternate may participate in the deliberations of the IGC but shall not vote except in the absence of a regular member from his region. The International President shall designate the priority of each region's alternates to fill the voting seats of regular members who are absent.

The IGC shall meet at least once a year, at the time and place of the World's Championship, and at such other times and places as it may determine.

The IGC shall elect its own chairman. Between meetings the Chairman, the International President, and a third member elected by the IGC shall constitute the Executive Committee of the IGC and may act, if necessary, on any matter within the IGC's powers even though its action may affect a period of time beyond its term of office. The Executive Committee may act either at a meeting or by a unanimous written consent signed by each of its members. Any meeting of the Executive Committee may be held by conference telephone or similar communication equipment, so long as all three members can hear one another, and all such members shall be deemed to be present in person at the meeting.

Alternatively, the full IGC may act between meetings by a unanimous written consent signed by each regular member of the IGC, or, in the case of the election of the Chairman of the IGC and third member of the Executive Committee, by mail ballot by majority vote. The Chairman and the third member of the Executive Committee shall not be members of the CMC. Not all three members of the Executive Committee shall come from the same continent. Upon taking office the IGC is empowered to:

14.1.1. Determine questions of policy.

14.1.2. Suspend members or impeach officers for cause and subject to the provisions of STCR 17.

14.1.3. Fill vacancies, including vacancies on the IGC except as otherwise provided by the Star Class Association Rules.

14.1.4. Appoint the Chairman of the IRC and the President of the IJ and approve their members.

14.1.5. Fix or alter territorial boundaries of districts and decide all inter-fleet disputes.

14.1.6. Act upon any other matters not otherwise provided for by Star Class Association Rules.

14.1.7. Permit the Class to sail in a World Sailing-sponsored World Championship sailed under World Sailing and/or International Olympic Committee (IOC) Rules. The decision of participation is made by the IGC.

14.2. Class Management Committee.

The Class Management Committee shall have charge of the daily affairs of the ISCYRA and shall consist of the International President as chairman, the four other International Officers and two district officers appointed by the International President with approval of the IGC, with terms corresponding to their elected terms of office. The Chairman of the Technical Advisory Board and Marketing Manager shall be members of the CMC without vote. It shall meet at frequent intervals. Its actions and decisions shall be reported to, and be subject to veto by, the IGC.

The composition of the Executive Committee of the Class Management Committee shall be the International President, International Treasurer, a member of the CMC designated by the International President, and a member of the CMC designated by the CMC. The Executive Committee will have the authority to resolve the matters of the CMC during the time between two meetings of the Class Management Committee.

Upon taking office the CMC is empowered to:

14.2.1. Transact all the daily business of the ISCYRA.

14.2.2. Purchase and sell securities.

14.2.3. Approve of depositories.

14.2.4. Act upon other administrative and procedural matters not otherwise provided for by the Star Class Association Rules.

14.3. Continental Committees. The Continental Committee for each continent shall consist of an International Vice-President as chairman and the Vice-Presidents of that continent. A majority vote shall decide all questions.

The Continental Committee shall sanction events and grant charters and shall immediately report such actions to the Central Office of the ISCYRA.

The Continental Committee may act upon continental matters not connected with dues, finances or other fiscal business of the ISCYRA. It shall have no power to take any action conflicting with the rules or principles of the ISCYRA, but it may submit recommendations to the IGC or CMC. It shall approve race committees and juries for Class Silver Events.

14.4 Communication with Class Members

All Standing Committees (specifically the IGC, CMC and CC) inform on matters in their responsibility per established means of communication at least as follows: in the Star Class LOG -annually; e-star-lights or designated email – frequently; on the ISCYRA website – as required; on a quarterly basis and at least after each annual meeting (AGM) defined in Rule 16.

15. Appointed Positions and Committees

The following positions and committees shall be appointed by the International President and ratified by the CMC and serve for one calendar year (except for the Judiciary Board)

15.1. Executive Director.

The Executive Director maintains necessary communication with the fleet secretaries, handles and channels forms, receives and routes correspondence, maintains central office records, issues boat numbers, keeps the register of Star boats, is responsible for maintaining the mailing list, acts as secretary of the President, assists the Treasurer by keeping the cash book and making bank deposits, answers routine and semi-routine correspondence, keeps the central office supplied and inventoried and administers other details connected with the operation of that office. The CMC has the authority to revise and adjust the description of duties of the Executive Director.

15.2. Technical Advisory Board.

The Technical Advisory Board (TAB) shall be responsible for clarifying, interpreting and advising the membership and the builders and suppliers on questions pertaining to the Plans, Specifications and Measurement Rules. It shall maintain the clear and informative statement of the Plans and Specifications and in accordance with STCR 18.1 review all resolutions involving changes in the Plans and Specifications and incorporate the amendments passed by the membership. In addition, it shall conduct such special studies as may be designated by the IGC.

The TAB shall establish and maintain the measurement standards, forms and techniques and ensure an appropriate measurement procedure. The Chief Measurer shall instruct and supervise the Certified Measurers, grant or reject Measurement Certificates and organize the corresponding administration.

The Chief Measurer or Co-Chief Measurers will be appointed by the Chairman of the TAB.

The Chief Measurer or Co-Chief Measurers shall report to the chairman of the TAB.

15.2.1. Chief Measurer. The Chief Measurer or Co-Chief Measurer will be appointed by the Chairman of the TAB, and report to the Chairman of the TAB. The Chief Measurer shall supervise all certified measurers, grant or reject measurement certificates, issue duplicates, collect transfer fees, sell plans and specifications, and answer questions on measurement rules. Subject to the approval of the TAB, he shall establish and maintain measurement standards, forms, and techniques. He shall maintain liaison with the TAB and may recommend to that board changes in Plans and Specifications.

The Chief Measurer, with the final approval of the CMC may appoint continental measurers. The continental measurer has the power to act on behalf of the Chief Measurer at any Gold, Silver or Blue event.

15.2.2. Co-Chief Measurer. There can be more than one Co-Chief Measurer appointed.

15.2.3. Continental Measurer. Names of continental measurers are listed on the ISCYRA website

15.3. Marketing Manager. The Marketing Manager shall advise the CMC on all matters pertaining to advertising, promotion and publicity and shall work with the Communications Director as requested by the CMC. It shall take whatever action is appropriate to develop new fleets and shall maintain contact with all isolated members for that purpose.

15.4. Editor. The Editor is responsible for the regular publication of Starlights and the compiling and editing of the annual LOG.

15.5. This paragraph is void.

15.6. Judiciary Board. The Judiciary Board (JB) shall consist of five members and one alternate, none of whom shall be an International or a Continental Officer. Four constitutes a quorum. A majority vote decides all questions. JB decisions are binding and cannot be appealed.

The CMC subject to IGC veto, shall each year appoint one member to serve for five years, and shall designate one of the members as chairman for the calendar year. If a vacancy occurs during the year a replacement shall be appointed for the remainder of the unexpired term.

The JB shall:

15.6.1. Decide all appeals properly brought before it in accordance with Rules 38 and 39, including all Fleet decisions and any action affecting an individual's membership in the ISCYRA.

15.6.2. On request of a member of the IGC, the CMC or a CC, interpret any conflict or ambiguity in the Rules of the ISCYRA.

15.6.3. Conform the Rules of the ISCYRA to incorporate all amendments passed by the membership.

15.6.4. Clarify the wording of the Rules of the ISCYRA at any time without changing their intent or meaning.

15.6.5. Resolve any questions of authority arising between the International and Continental officers.

15.6.6. Advise the delegates at an annual meeting or the membership if it considers a proposed resolution to be improper.

15.7. Regatta Manager. The Regatta Manager, in cooperation with the Chief Measurer and others as required, shall take all actions necessary to improve the quality of all sanctioned events. The Regatta Manager shall prepare race management manuals and model instructions and conditions for use in sanctioned events. Sailing Instructions and conditions for Gold and Silver events must be submitted to the Regatta Manager for approval.

The organization of Gold and Silver events, including facilities on land and on the water, measurement, transport and social events shall be reviewed by the Regatta Manager. Wherever possible the Regatta Manager shall visit the venue of a Gold or Silver event to inspect and approve the organization of the event, such visit to take place not later than sixty days before the first race of the event.

15.8. Reserved

15.9. Other. Special officers or committees may be appointed at any time by the IGC.

15.10. Star Class Central Office. The Star Class Central Office is there to serve the International President and organize the work for the ISCYRA. The Star Class Central Office is run by the Executive Director. The location of the Central Office is determined by the CMC.

16. Annual Meeting

16.1. An annual meeting shall be held at a time and place fixed by the IGC, which shall be during the period of and in the vicinity of the World's Championship. If an annual meeting predicts a situation where any fleet or International Officer cannot assure fair representation, the IGC may elect to postpone or reschedule the annual meeting. Any rescheduling of the annual meeting shall be posted on the Class website no sooner than 90 days prior.

16.2. Each fleet shall be responsible for the selection and instruction of a delegate or proxy, who shall present the fleet's views and cast its votes. Alternate delegates or proxies may be named, but an order of preference must be specified, and only the highest present is entitled to vote.

16.3. The fleets present at an annual meeting shall constitute a quorum. Fleets answering the roll call shall be deemed present throughout the meeting.

16.4. Each fleet shall be entitled to cast one vote for each Star boat enrolled in that fleet and properly recorded with the ISCYRA by a separate active member in good standing. Membership books close ten days before the meeting or as ordered by the IGC. Any member may be heard; but only properly accredited delegates and proxies, duly authorized and certified, and isolated members shall vote on motions and must vote unless excused by the chair. Except when otherwise specified in the ISCYRA Rules a majority of the votes present shall decide all questions. In the event of a tie the chair shall cast the deciding vote.

16.5. The chair may fix a time limit on speakers and debate.

16.6. The order of business at an annual meeting shall be:

16.6.1. Call to order.

16.6.2. Reading of minutes.

16.6.3. Reports of ISCYRA Officers.

16.6.4. Ratification of the IRC and IJ.

16.6.5. Ratification and revocation of fleet charters.

16.6.6. Unfinished business.

16.6.7. Proposed amendments.

16.6.8. Other new business and open discussion concerning current subjects of interest. .

16.6.9. Adjournment

16.7. Each delegate to annual meeting is entitled to vote on his own fleet's behalf and for no more than 10 other fleets for which he holds properly granted proxies. IGC and CMC members are entitled to vote only on behalf of their own fleet.

17. Suspension, Expulsion and Impeachment

17.1. Suspension. A member may be suspended by the IGC for gross violation of the rules or for unsportsmanlike conduct, or, after due warning, for willful and persistent disregard of rulings. The duration of a suspension is fixed by the IGC but may not exceed the IGC's own term of office unless the suspension is extended by the succeeding IGC. Notwithstanding the foregoing, a suspension may be terminated by majority vote at an annual meeting.

17.2. Expulsion. A member may be expelled only by 3/4 vote at an annual meeting.

17.3. Impeachment. Any officer may be impeached by the IGC for a willful and unjustifiable act of

commission or omission detrimental to the Star Class or to its members.

18. Amendments

18.1. ISCYRA Rules, Rules Governing Star Class sanctioned Events and Fleet Qualifications, and Plans and Specifications can never be suspended but may be amended, except as specified in STCR 18.2, by the following procedure: an amendment can be proposed only by a fleet meeting advance notice of which must have been sent to all its voting members. When the proposed resolution is sent to the Star Class Central Office, a copy of the letter of advance notice to fleet members must accompany the resolution. Also a statement as to how many voting members attended the meeting signed by fleet captain and secretary.

Each proposed amendment must next be filed with the CMC at least 120 days prior to the date of the next annual meeting. It will then be automatically submitted by the CMC to the JB for review. The resolution will then be published on the ISCYRA web page no later than 45 days before the next annual meeting, in order to be put on the agenda of or considered by that annual meeting.

The proposed amendment must then be approved by the majority vote at the annual meeting. It shall then be submitted to the active membership for vote. Enactment shall be by ballot of the active and life members and shall require a 2/3 vote of the members voting on the amendment. An enacted amendment shall take effect January 1st of the ensuing year, or 91 days after the annual meeting, whichever is later. Voting eligibility regulations are those of Rule 13.3 Members or groups, including IGC, for or against an approved resolution may set forth their views in Starlights.

Exceptions:

18.1.1. An annual meeting itself can order the required advance publication of a proposed amendment for consideration the ensuing year.

18.1.2. An amendment to the Plans and Specifications shall require approval by the TAB before publication; but such an amendment disapproved by the TAB may be filed again the following year and shall then be published, and if it is approved by two successive annual meetings, shall be submitted to the active membership as hereinafter provided.

18.2. The basic principles of STCR 3, 4, 5 and 6 of the ISCYRA Rules cannot be changed. No amendment can be passed which would render ineligible a yacht or an active member whose eligibility has been established under existing rules and whose status could not be changed to conform with the proposed amendment. An amendment retroactively affecting active members' or fleets' existing rights can be enacted only by a 3/4 vote of the total voting strength of the active membership.

18.2.1 The IGC may, upon a majority vote of the IGC, waive or suspend a specific Star Class Rule within STCR 23 through 35, STCR 37 and STCR 40. Such waiver or suspension of Star Class Rules shall be approved by the IGC and published on the Star Class web page not less than 90 days prior to any test Event and shall be effective only for a single Event. . Such waiver or suspension of Star Class Rules may be repeated for subsequent events at the discretion of the IGC if appropriately approved and published but no longer than 24 months from the first test event to the last test event. STCR 18.2.1 shall not be used to waive or suspend Star Class Rules 1 through 22, STCR 36, STCR 38 or STCR 39.

19. Dissolution

Upon the dissolution of the ISCYRA, the IGC shall, after making provision for the payment of all of the liabilities of the ISCYRA, dispose of all the assets of the ISCYRA exclusively for the purposes of the ISCYRA in such manner, or to such organization or organizations organized and operated exclusively for charitable educational, religious or scientific purposes, as shall at the time qualify as an exempt organization or organizations under Section 501 C (3) of the US Internal Revenue Code of 1954 (or the corresponding provision of any future U.S. Internal Revenue Law) as the IGC shall determine. Any such assets not disposed of shall be disposed of by the court of general jurisdiction of the country in which the principal office of the ISCYRA is then located, exclusively for such purposes or to such organization or organizations, as said court shall determine, which are organized and operated exclusively for such purposes.

20. *(This number is reserved for future use)*

RULES OF THE ISCYRA

2024 CHAMPIONSHIP RULES

Rules Governing Star Class Sanctioned Events and Fleet Qualifications

21. Eligible Boats

21.1. A boat is eligible and considered to be in the Star Class only if it has been properly registered, conforms to measurement rules, is built by an active builder and is owned by a qualified active or life member recorded at the time as in good standing with the ISCYRA. An ineligible boat must be barred from all Star races, and cannot be reinstated until all requirements of the ISCYRA have been fulfilled.

21.2. Any Star sailing with a number not yet issued (7.3 and 15.1) must be disqualified from all races in which such a number was displayed.

21.3. A boat cannot be registered in more than one fleet at a time.

22. Observance of the Rules of the ISCYRA

The enforcement of the Rules of the ISCYRA is essential to the protection of all Star owners. Members are required to report to the ISCYRA any race held for the Star Class as such, wherein the Rules of the ISCYRA are not respected and enforced by the organization conducting it, or where entries of ineligible boats are knowingly accepted. A member who makes himself party to such practices, by knowingly and after due warning entering such an outlawed event, shall himself be subject to suspension. A Continental Committee may outlaw any event for cause.

23. Championship Events

23.1. The purpose of the Championship shall be to determine annually the appropriate champions by competition among eligible boats.

23.2. All series for major Star championships territorially greater than one fleet, and events for perpetual, semi-perpetual or open trophies, may be sanctioned by the appropriate Continental Committee. Honor insignia and Award (23.5.9.) cannot be awarded unless a sanction has been granted.

23.3. A sanction granted to an event for at least two consecutive years shall become automatic and need not be applied for again, even though the event is held in different localities, unless the event has lapsed for more than two years. The Continental Committee may, however, at any time cancel or withdraw a sanction if it deems such action advisable.

23.4. Application for sanction should be filed with the Central Office on a form obtainable from that office. The Continental Committee will then act on the application (14.3.)

23.5. Sanctioned Events and Awards. Except Gold and Silver Events, all other Events can be sailed as "Combined Events" with separate results.

23.5.1. Gold. World Championship. Open to all Members of all Fleets and to Isolated Members. Entries per STCR 29.1 GOLD awards. The Olympics is also considered a Gold event. (See ASSOCIATION INSIGNIA AND AWARDS)

23.5.2. Silver. An established championship of a continent or hemisphere. Open to all Members of all Fleets and to Isolated Members. Entries per STCR 29.1 A minimum number of fifteen competitors shall finish at least one race is required. SILVER awards.

23.5.3. Blue. District Championship. Open to all Members of all Fleets and to Isolated Members. Entries per STCR 29.2 BLUE awards. To allow all members to participate in another District Championship, it can be sailed as an "Open District Championship." Honor Awards for the Event and qualifications via the Event are only granted to the winners which are either Members of the organizing District or participating as Isolated Members.

23.5.4. Green. District Championship restricted to Novices (STCR 23.7.1 and 23.7.2). Open to all Novices of a District. GREEN awards.

23.5.5. U30 Championships in which boats may be skippered by other than their skipper-owner may be held, as sanctioned, at any of the above competitive levels. A World U30 Championship would be designated as Gold U30, Continental as Silver U30, etc. Entries in accordance with above rules of each classification. Awards are stars only, as above, but with a large U30 of contrasting color inserted in the star. No chevrons or bars awarded.

23.5.6. Except for the Olympics or World Sailing-sponsored World Championships or other World Sailing-sponsored events (e.g. World Cup), the above events are under the auspices of the ISCYRA. For Gold and Silver events, the Organizing Authority will be the ISCYRA in conjunction with the host club. For Blue and Green events, the Organizing Authority will be the District Committee and/or local fleet in conjunction with the host club. No other races to be scheduled in the vicinity and courses must be adequately patrolled. Except as Combined Events are allowed by STCR 23.5, no other races may be scheduled in the vicinity, and courses must be adequately patrolled.

23.5.7. Red. An established event of inter-fleet character featuring the Star Class. Open to all fleets, entries unlimited. To winner: THREE RED chevrons.

23.5.8. Fleet Qualifications. Open to all skipper-owners (or part owners), registered before the first race, who are members of the fleet. To winner: ONE RED chevron.

23.5.9. Honor Awards. Honor awards are displayed on main sails. Awards rank in the following order: gold, silver, blue, green and red. For example, one gold chevron outranks a silver star. Only the highest award ever won by any one skipper (either as skipper or crew) shall be displayed or kept on record, except that chevrons of higher rank may be used with a championship star of lesser rank. For example, a skipper entitled to a blue star may use his gold chevrons beneath it. The winner of two championship stars of the same color inscribes both dates in the star.

Awards are made to the skipper (Star, Olympian or Star and chevrons) and crew (Olympian with bars or Star with Bars), not to the boat; if the boat is sold, awards are retained by the skipper for use on any other Star boat he may own while a member of the ISCYRA.

If a crew acts as a skipper he shows his highest award ever won either as skipper or crew. Ranking of the Honor Awards is: 1.) highest color, 2.) highest place, 3.) highest won as a skipper before Honor Award won as a crew.

23.6. Special Events.

23.6.1 The Vintage Gold Cup is a sanctioned event with honors. It is sailed by eligible skippers in restored wooden boats of the Star Class and open to all fleets. The Winner is awarded a gold laurel wreath.

23.6.2 Events not specified in this paragraph or ones above, but under ISCYRA jurisdiction, require no sanction and rate no honor awards. Intercollegiate, U30, Ladies' or other races in which Stars are sailed by other than their skipper-owners (unless specified above), are not under ISCYRA jurisdiction in any form.

23.7. Definitions.

23.7.1. A Novice Skipper is one who has never as a skipper won any series honor that is higher than a Green event honor, or as a skipper won a Green event.

23.7.2. A Novice Crew is one who has never as a skipper or crew won a Gold or Silver event.

23.7.3. A Youth Member is a person who will not have reached his or her 20th birthday before the first race of the event. A Junior is a person who will not have reached his or her 30th birthday before the first race of the event.

24. Perpetual Trophies

- 24.1. There shall be awarded to the winner of the series such perpetual trophy or trophies as have been donated or deeded for the purpose.
- 24.2. The trophies shall be held by the winning fleet until the time of the next series, subject to IGC approval and order.
- 24.3. Title to the trophies shall be and remain in the individuals who are the current members of the IGC, who may impose any conditions necessary for the safe keeping of the trophies.

25. Location

25.1. The IGC shall designate the place of the World Championship, having in mind the purposes of development, promotion, equitable distribution, and selection of a location with suitable facilities and racing conditions. In the event of multiple applications from the same continent for the same World Championship, the IGC shall obtain the recommendation of the appropriate Continental Committee prior to selecting the Championship venue. The IGC's selection shall be subject to the following restrictions:

- 25.1.1. It cannot be held in the same fleet or locality twice in two consecutive years.
- 25.1.2. It cannot be held in the same district for more than two consecutive years.
- 25.1.3. It cannot be held on the same continent (including adjacent island districts) for more than three consecutive years.
- 25.1.4. It cannot be held in the same hemisphere for more than five consecutive years.
- 25.1.5. The responsibility for arranging and providing proper facilities, prizes and entertainment shall rest with the fleet sponsoring the event. In this regard it shall cooperate with and be guided by the IGC.

25.2. The place of Silver Star (Silver) championships shall be determined by the Continental Committee and subject to the restrictions of STCR 25.1.1 and 25.1.2, unless otherwise provided for by a well-established precedent or by a signed agreement among a representative number of District Secretaries, filed with and approved by the IGC.

25.3. The site of the Blue-Star (Blue) Championship shall be determined by the District Secretary, subject to the following restrictions: It cannot be held by the same fleet for more than two consecutive years. If the winning fleet is ineligible to hold the event it shall be awarded to that fleet having the highest total point score for the past three years which is able and willing to hold it, unless otherwise provided for by established precedent or by a written agreement adopted by a majority of the fleet secretaries and filed with and approved by the IGC.

25.4. STCR 25 shall not be amended so as to effect a change of location of the series for the following year.

25.5. All Rules under STCR 25 are exposed when the ISCYRA is asked to sail in a World Sailing-sponsored World Championship sailed under World Sailing, World Sailing-sponsored Continental Championship and/or an Olympic Regatta organized by the International Olympic Committee (IOC). The decision of participation in that year is made by the IGC.

26. Eligibility

26.1. For Gold, Silver and Blue events, the skipper (helmsman) must:

- 26.1.1. Be an active or life member and have been one since the entry was filed.
- 26.1.2. Be enrolled in the fleet he represents.
- 26.1.3. Not have been enrolled as a member in any fleet other than the one he represents for two

months prior to the first race, nor can he have been a member of more than two fleets for a period of one year prior to the first race.

26.2. For Gold, Silver and Blue events the crew must:

26.2.1. Be a member and have been one since the entry was filed.

26.2.2. Be designated and act as crew, touching the helm only if necessary for brief temporary relief.

26.3. For Green Events, each helmsman must be a Novice and an active or life member and have been one since the entry was filed and be enrolled in the fleet he represents.

26.4. For all other (except U30) events, only the skipper must be a member.

26.5. For U30 events excluding U30 Gold and U30 Silver events no membership is necessary.

27. Scheduling and Number of Races

27.1 The ISCYRA World Championship (a Gold Star Event) shall consist of a minimum of five completed races of six scheduled, one race per day. A race postponed, abandoned or incomplete will be rescheduled and resailed as soon as possible. The Race Committee is authorized to get one race ahead of schedule should expected sailing conditions warrant.

27.2. The Hemisphere and Continental Championships (Silver Star events) using:

Format A shall consist of a minimum of six (6) scheduled races.

Format B shall consist of a minimum of seven (7) scheduled races.

Format C shall consist of a minimum of eight (8) scheduled races.

A race postponed or abandoned will be rescheduled and resailed as soon as possible. There may be one reserve day for possible resails provided that such option be stated in the Notice of Race. The race committee shall make every reasonable effort to complete all scheduled races within the published date (including reserve day if any). If it is not possible to complete four races, the series shall be canceled.

27.3. U-30 Gold and Silver events, regardless of requirements in STCR 27.1 or of Format in STCR 27.2 above, shall consist of 3 race days, two races per day scheduled, and a minimum of three completed races to make a championship. Note – discard policy is described in STCR 34.6.2

27.4. Other events shall consist of three completed races minimum. Blue Star Events (District Championship) shall be scheduled for six races minimum and shall consist of three completed races. The number of scheduled races shall be defined by the Notice of Race

27.5. A race committee is not empowered to shorten any series except as provided in STCR 27.2; but if the JB on appeal declares a race no contest and the race cannot be resailed, the series scores shall be re-computed on the basis of the valid races completed even though it be an even number of races.

28. Entry Forms and Terms

28.1. Entries to the World Championship (Gold) and to the Hemisphere or Continental Championships (Silver) Events must be fully completed and filed in duplicate on an approved entry form. Entry deadline for the World Championship event is 30 days before the first race. Entry deadline for Silver Championship events is 21 days before the first race. The entry forms shall be sent:

One copy to the Central Office

One copy to the organizing club

28.2. Entries for District (Blue and Green) Events must be fully completed and filed in duplicate on an approved entry form, and must be received 7 days before the first race. The entry forms shall be sent:

One copy to the District Secretary

One copy to the organizing club

28.3. Late entries to Gold, Silver and Blue/Green Championship Events.

28.3.1 Gold Events: The CMC need not accept a late or incomplete entry.

28.3.2 Silver Events: The appropriate Continental Committee may accept a late entry for a Silver event.

28.3.3 The appropriate District Secretary may accept a late entry for a Blue/Green event.

29. Entries

29.1. Entries to a Gold and Silver event shall be open to all Life and Active Members of a Fleet and to Isolated Members and Junior Active Members. For the sole purpose of this STCR 29.1, in addition to the requirements set forth in STCR 9.1.1, an Active Member is one who also has sailed in a representative number of races (at least five) in his own home waters (either Fleet or District) during the 12 months prior to the entry deadline of the event and registered with the ISCYRA with current annual dues paid.

29.2. Entries to a Blue event shall be open to all Members of any Fleet and to Isolated Members.

30. Substitution

30.1. In Gold, Silver or Blue events, the boat, skipper and crew starting the series must sail throughout except in the case of proven accident or illness.

30.2. Permission for any substitution must be obtained from the Race Committee or the Jury before the race. Such permission shall be denied if unfair advantage is granted thereby or if the substitution is not an absolute necessity, or if the substitution results in non-compliance with the STCRs.

31. Racing Restrictions

31.1. Personnel.

31.1.1. The maximum number of persons allowed in each boat shall be two.

31.1.2. Each person on the boat shall be eligible to compete in accordance with RRS Appendix K. Additional eligibility requirements may be imposed by organizing authorities for regattas other than Gold, Silver and Blue events and Fleet Qualifications.

31.1.3. Team Weight. For Gold, Silver, and Blue events, Fleet Qualifications, the Olympic Regatta, all respective Olympic Trial Regattas and all World Sailing Grade One Ranking Regattas, the total team weight is limited according to the following formula:

$$S = \text{Skipper's weight, } C = \text{Crew's weight in kilograms: } C = ([100 - S] / 1.5) + 100$$

Weighing before the event is required. Only for Gold events: Weighing during or after the event is optional at the discretion of the organizing authority as posted in the Notice of Race or Sailing Instructions. For all applicable events other than Gold, weighing during or after the event is only allowed pursuant to a properly filed protest. Teams found to be in violation of the rule shall be subject to disqualification from any race sailed on the day of the violation.

31.1.4. For Gold and Silver events a yacht shall receive no outside assistance from support boats or otherwise once she has left the dock for the day until the finish of the last race of the day, except in the case of emergency and/or towing supplied by the organizer and available to all participants. [This rule shall not be used at World Sailing World Cup or World Sailing Combined Worlds events.]

31.2. Equipment

31.2.1. Dead weight shall not be carried as stationary or movable ballast. A competitor shall not wear or carry any clothing or equipment for the purpose of increasing his weight. The total weight of clothing and equipment permitted by RRS 50.1 (b) shall not exceed 10 kilograms.

31.2.2. Each boat must carry:

- (a) Two approved personal flotation devices (life jackets), which when not worn, must be readily available within 30 cm (1 ft.) of the cockpit coaming.
- (b) One paddle or oar.
- (c) One line, minimum diameter 8mm, minimum length 20 m.

31.2.3. The use of stays, sheets, or lines other than those specifically described in this section to support the body of the skipper or crew is prohibited. During the normal act of tacking or jibing both feet of the crew and skipper must remain on or inside the deck edge when looking in profile. No hiking aids or aids to support the skipper or crew outboard are permitted except:

(a) For skipper and crew, foot straps are permitted, of material no more elastic than nylon webbing, securely fastened within the cockpit. These may be adjustable but shall not reach beyond the sheer line (outboard edge of the deck) when fully extended. All foot straps shall be designed so as to come completely off the feet in the normal act of tacking or jibing. The use of hobbles or an individually closed strap for each foot is specifically prohibited. Doubled foot straps, if used, must have sufficient clearance between them so that the user may easily step out of the straps without the use of hands or extraordinary movement of the feet.

(b) For the crew only, a hiking vest that is securely attached within the cockpit or to the deck is permitted. The vest must be attached to the hull by means of a quick release device approved by the Technical Committee. The Technical Committee has approved only the following three attachment devices:

(1) The Ball Lock device consists of a wire attached to the hiking vest at one end with one or more swaged balls on the pennant. The lock (keyhole type) is mounted on the deck. The ball on the wire pennant fits into the lock on the deck while hiking; however, the ball must release from the lock while in the act of tacking.

(2) The Hiking Tang device consists of a rope or wire attached to the hiking vest at one end with a bent right-angle tang at the other end. The bent tang may be hooked over the backstay track or into a flat slotted plate on the deck; however, the tang must release from the plate while in the act of tacking.

(3) The Rope in Cleat device consists of an open-ended rope of sufficient tensile strength, which attaches to a jam-cleat mounted on the deck; however, the rope must release from the cleat while in the act of tacking.

Vests must weigh no more than 2.5 kg. The hiking vest shall not be used without the crew's feet being in the approved foot straps and shall not be used in any manner to enable the crew to adopt a hiking position different from what would be possible in the absence of the vest.

For skipper and crew, hand holds mounted on the deck which do not measure more than 50 mm above the deck and are mounted aft of the forward end of the mast opening are permitted.

(d) For skipper and crew, padded trousers or shorts that have sewn-in battens on the backs of the upper legs from above the knee to below the seat to assist in supporting outboard weight when hiking.

31.2.4. The jib may be winged by means of a whisker pole the inboard end of which, when in use, shall rest against the mast.

31.2.5. No sails other than the approved jib and mainsail can be used, and only one of each of these, on the proper hoist, can be above deck at the same time. A race committee shall not allow the use of a sail bearing an incorrect number unless all contestants are advised of the change before the start of the race.

A skipper shall not use or measure in more than two mainsails and two jibs in any series of races.

31.2.6. Electronic devices

The Star Class Technical Advisory Board (TAB) maintains a list of recommended electronic devices and only those approved by the TAB and listed on the Star Class website are allowed to be used during ISCYRA events.

-
- (a) Compass/Timer/Computer: Self-contained digital compasses – giving no more than direction, tacking prompt and timer are allowed as is GPS positioning.
 - (b) Handheld VHF radios are allowed. A competitor may carry a VHF radio for safety purposes and race committee communication. Use of the VHF radio is not permitted while racing except for emergencies. This restriction may be modified to allow communication from the Race Committee to competitors on a predetermined channel if so stated in both the Notice of Race or the Sailing Instructions and if not prohibited by law.

32. Measuring, Weighing and Sail Controls

32.1. At Gold and Silver Championship events, measurement is required as determined by the Technical Advisory Board. Measurement may include boat and mast-tip weighing, measuring of sails and spars, checking required equipment, and such measurement of hull, keel, skeg and rudder as the Technical Advisory Board shall find necessary. At Blue and lower events, if required by the event authorities, measurement may include such checks and measurements required for higher events as these authorities find necessary.

32.2. When measurement is required, a measurement period to close not later than the start of the first race shall be scheduled and announced, and a regatta measurer with power of approval shall be appointed by the appropriate authority (e.g. The ISCYRA at Gold and Silver Events, or the District at Blue Events). Except as provided by special rules or by action of the event authorities, no item may be submitted for approval after the close of the measurement period.

32.3. This section applies when measurement includes weighing to verify compliance with Specs. 13. A Certified Measurer authorized to weigh and seal boats as provided in Specs. 13 shall be present. Additional material shall be added to an underweight boat to the extent necessary to meet the minimum weight. Existing additional material may be removed to the extent a boat exceeds the minimum weight. If additional material is added or removed, the additional material thereafter remaining shall be sealed as provided in Specs. 13, and a new plaque affixed to the boat stating the amount of additional material carried. Additional material may be added or removed in accordance with this section at any time during the prescribed measurement period for the event.

32.4. Sails approved for entry shall be indelibly and distinctively marked and only sails so marked may be used. No approved sails may be altered during the event. Repairs are permitted, subject to any special rules regarding permission and reapproval, provided no alterations are made. Approved sails may be used only on the boat for which they were submitted. To control the number of sails used, sails may be marked without measuring, in which case such marking does not constitute any finding of compliance with the Specifications.

32.5. At Blue and lower events, if weight control consists of inspection of weight seals and plaques, such inspection does not constitute any finding of compliance with minimum weight requirement.

32.6. When measurement is required, approval is required for eligibility. Nothing in this Rule, nor any action by the event measurement authorities, shall be taken to reduce or limit the provisions of the STCR regarding eligibility.

33. Measurement Certificates

33.1. No boat shall be eligible to enter any race for the Star Class until it has been granted a measurement certificate.

33.2. Qualified certified measurers are appointed by the chairman of the Technical Advisory Board.

A certified measurer status is granted only by attending a certification course organized by ISCYRA.

The certified measurer status has to be renewed every four years.

Their authority is restricted to the taking of actual measurements and filling a report thereof. No certified measurer shall measure his own boat except under supervision of a disinterested person appointed by the technical Advisory Board. Measurers are entitled to a fee approved by the IGC. The owner of a boat being measured shall pay the measurer's fee whether or not a certificate is granted.

33.3. The ISC/YRA's measurement certificates shall be binding upon all organizations conducting races for the Star Class. A boat holding a certificate shall not be subject to remeasurement or protest on measurements unless reasonable grounds can be shown to suspect subsequent alterations or previous mismeasurement. Notwithstanding the foregoing, a boat is always subject to remeasurement by order of the IGC, CMC, IJ, the TAB, or a Continental Measurer (see STCR 15.2.1).

33.4. A protest of the measurements of a certified boat, except as to matters covered by Rule 8.9.3., must be accompanied by a deposit of US \$50, if permitted by the host's member National Authority, which is returnable only if the protest be sustained.

34. Racing Procedure

34.1. Entries shall report to the Race Committee on reaching the starting area, and shall follow all official accounting instructions.

34.2. Races shall be held in open water as free as possible from headlands, shoals, obstructions and aids to navigation. Aids to navigation, unless otherwise specified, must be left on the required or channel side.

34.3. Courses.

34.3.1. Course 0, 1, 2, 3, 6 and 7 are described below. In Gold and Silver events course 0, 1, 3, 4, 6 or 7 shall be used; Course 2 may be used in Silver events if requested by the sponsoring fleet and approved by the Continental Committee.

In Blue and Green events, course 0, 1, 2, 3, 4, 6 or 7 shall be used. Leg lengths refer to the first leg of a course and are measured from the Start line to Mark 1. Mark 3 may be no more than .25nm from the Start Line.

No course shall be shortened under RRS 32 (flag S). Course legs may be altered under RRS 33(b) (flag C and + or -) within the leg length limits applicable to the Format of the regatta. In Red events, the above courses are not mandatory and may be shortened

34.3.2. Course 0.

An isosceles right-angled triangle, followed by a windward and return, and finishing on a final windward leg, the right-angle mark being omitted after the first round.

34.3.3. Course 1.

An isosceles right-angled triangle, followed by a windward and return, the right-angle mark being omitted after the first round.

34.3.4. Course 2.

Two isosceles right-angled triangles, with a windward and return in between, the right-angle mark being omitted during the second round, and finishing on a final windward leg.

34.3.5. Course 3.

Two complete right-angled triangles, with the hypotenuse the third leg, followed by a final windward leg (7 legs). The triangle is intended to be basically a windward-leeward circuit, with the second leg consisting of a reach of approximately 55 meters at right angles to the direction of the first leg.

34.3.6. Course 4.

Two complete right-angled triangles, with the hypotenuse the third leg (6 legs), finishing downwind. The triangle is intended to be basically a windward-leeward circuit, with the second leg consisting of a reach of approximately 55 meters at right angles to the direction of the first leg.

34.3.7 Course 6.

Two complete right angled isosceles triangles, with the hypotenuse being legs 1 and 4, finishing at the end of leg 6

34.3.8 Course 7.

Two complete right angled isosceles triangles, with the hypotenuse being legs 1, 4 and 7, finishing at the end of leg 7.

34.3.9 Length of legs for all courses and time limits:

Format A - Sixty (60) or more boats competing: Minimum of 2 nautical miles (n.m.) and maximum of 2.5 n.m. legs. 45-minute maximum time limit for first beat, 3.5 hours maximum time limit for completed course. No more than 2 races per day.

Format B - 30-59 boats competing: Minimum of 1.25 n.m and maximum of 1.8 n.m. legs. 40-minute maximum time limit for first beat, target time per race is 1.5 hours. 3-hour maximum time limit for completed course. No more than 3 races per day.

Format C - Under 30 boats competing: Minimum of 1 n.m. and maximum of 1.5 n.m. legs. 30-minute maximum time limit for first beat, target time per race is 1 hour. 2-hour maximum time limit for completed course. No more than 3 races per day.

At the discretion of an agreement between the Organizing Authority and the CMC, and if the conditions warrant a format may be chosen not based on the number of competitors.

34.4. Modification of Course.

34.4.1. For Blue, Green, Red and U30 events, the Race Committee may modify the official course by using the leeward mark as the starting pin.

34.4.2. Starting line. Text deleted

34.4.3. For Blue, Green, Red and U30 events, the Race Committee may modify the official course by using a mark of the course as the finishing mark.

34.4.4. A gate at the leeward mark instead of the leeward course mark may be laid out. This leeward gate will consist of a pair of marks. The two marks will be located approximately 7 to 10 boat lengths apart. Boats shall first sail through the gate and then either leave mark 3S to starboard or mark 3P to port.

34.4.5. An offset mark, approximately 75 to 100 meters and approximately 90° from the windward mark of Courses 3 and 4 is mandatory and is recommended for Courses 0, 1 and 2.

34.5. Time Limit. Text deleted.

34.6. Scoring.

34.6.1. Scoring will be in accordance with RRS A2, Low Point Scoring System, except as modified in these rules.

34.6.2. In Gold and Silver Championship events, each boat's series score will be the total of her race scores, discarding her worst score if more than four races have been completed.

COURSES

Star Class Courses (STCR 34.3 and 34.4)

In case of small regattas, the starting line may be set up at mark 3 and the finishing line at mark 1.

Courses 0, 1, 2, 3, and 4 are diagrammed as described in STCR 34.3 and modified allowed by STCR 34.4.

In Gold and Silver events, Course 0, 1, 3, or 4 shall be used. Course 2 may be used in Silver events if requested by the sponsoring fleet and approved by the Continental Committee. In Blue and Green events, Course 0, 1, 2, 3, and 4 shall be used.

No course may be shortened during Gold, Silver, Blue, or Green events.

In Red events and Qualifications, the above courses are not mandatory and may be shortened.

Course "0"

* See STCR 34.3.9 for approximate leg distances
* See STCR 34.4.5 for 1a offset guidelines

Start

- 1
- 2
- 3
- 1 (or 1 + 1a offset)
- 3 (or gate 3s / 3p)

Finish (upwind)

Course "1"

* See STCR 34.3.9 for approximate leg distances
* See STCR 34.4.5 for 1a offset guidance

Start

- 1
- 2
- 3
- 1 (or 1 + 1a offset)

Finish (downwind)

Course "2"

* See STCR 34.3.9 for approximate leg distances
* May not be used for Gold events. Silver events require Continental Committee approval (STCR 34.3.1)

Start

- 1
- 2
- 3
- 1 (or 1 + 1a offset)
- 3 (or gate 3s / 3p)

Finish (upwind)

Course "3"

* See STCR 34.3.9 for approximate leg distances
* See STCR 34.4.5 for 1a offset requirement

Start

- 1
- 1a
- 3 (or gate 3s / 3p)
- 1
- 1a
- 3 (or gate 3s / 3p)

Finish (upwind)

See STCR 34.3.9 for approximate leg distances

Start

(or gate 3s / 3p)

Finish (downwind)

Course "7"

* See STCR 34.3.9 for approximate leg distance

Start

- 1
- 2
- 3
- 1
- 2
- 3

Finish (upwind)

34.6.3. In Gold and Silver Championship events, the order of finish and finish times shall be recorded and scored for only:

Format A: 60 minutes after the first boat finishes

Format B: 45 minutes after the first boat finishes

Format C: 30 minutes after the first boat finishes

All boats not finishing within these limits and still sailing the course shall be scored TLE. TLE will be defined as the theoretical average score of all boats not *finished* and still sailing the course at the close of the window.

34.7. Starting Time. A boat not starting within 10 minutes after the starting signal will receive a score equal to a boat not starting (DNS).

34.8. Team Racing. Team racing tactics in all events are prohibited unless specified in the sailing instructions.

35. Rules

35.1. The Racing Rules of Sailing (RRS) of the WORLD SAILING shall govern in all Star races.

35.2. National Letters shall be displayed, if elected to be displayed by a competitor or when required by a World Sailing National Authority, or by applicable World Sailing rules. They shall be displayed in accordance with Star class specifications.

35.3. Racing instructions and local rules in fleet by-laws or published notices to its members, not conflicting with Class Rules must be observed; but verbal instructions or unrecorded rules are not official. Fleet rules shall not prevail in intersectional or inter-fleet races.

35.4 LEFT BLANK

35.5 In any Star regatta held under Part Two of the Rules of the ISCYRA, the only penalty that will apply under RRS 44.1 or Appendix P will be the "One-turn Penalty" as defined in RRS 44.2

36. Interpretation of the Rules of the ISCYRA

36.1. In deciding any question, the intended meaning of the rules shall be considered. Extenuating circumstances may be taken into consideration in the Rules of the ISCYRA or restrictions if the wording requires interpretation and no deliberate attempt to gain an unfair advantage has been practiced. Precedent and the established policy of the ISCYRA shall be taken into consideration.

36.2. The rulings of the JB and of the IJ shall be preserved for reference

37. Race Committee and International Jury

37.1. Appointment of race committees and juries (when applicable) shall be as follows:

37.1.1. For the World Championship (Gold) events an International Jury (IJ) and a Race Committee (RC) shall be appointed by the Regatta Manager with the approval of the CMC and the IGC.

The International Jury is not authorized to direct the Race Committee.

37.1.2. For Continental Championship (Silver) events a Jury and a Race Committee shall be appointed by the Continental First Vice President with the approval of the Continental Committee.

37.1.3. For District Championship (Blue) events a Jury and a Race Committee shall be appointed by the District Secretary.

38. Appeals to Judiciary Board

38.1. Appeals may be taken to the JB from:

38.1.1. Decisions regarding a competitor's eligibility to compete in a sanctioned Star Class event.

38.1.2. Any action of the TAB regarding an individual boat.

38.2. The following cannot be appealed to the JB:

38.2.1. Decisions of protest committees, International Juries and Juries.

38.2.2. Actions of a race committee regarding the conduct of racing.

38.3. Notice of appeal must be filed with the JB and postmarked within thirty days of publication of the decision from which the appeal is taken. A deposit of US \$30 if permitted by the host's member National Authority, must accompany the appeal.

38.4. An appeal shall consist of a legible (preferably typed) statement, in English, setting forth:

38.4.1. Specific reference, by section and paragraph number, to rule or other authority on which the appeal is based.

38.4.2. Name and address of all persons involved.

38.5. The JB shall issue instructions on procedure and shall fix time limits on filing answers and other information (time determined by postmarks), and those failing to comply with such instructions may forfeit the right to be heard.

38.6. In deciding appeals the JB shall consider the interpretation and proper application of rules. If the facts submitted are not sufficient for a decision, the chairman of the JB may appoint a committee to establish facts.

38.7. If in the opinion of the chairman the JB is without jurisdiction to hear the appeal, he shall so rule and the deposit will be refunded. In that event appellant may demand a hearing by the full JB. If the hearing is not granted the deposit shall be forfeited to the ISCYRA.

38.8. No appeal can be taken from JB decisions.

39. Inter-Fleet Disputes

Inter-Fleet disputes not involving an actual protest in a race shall be heard by the IGC. There is no time limit for submitting disputes, but a deposit of US \$30 is required, if permitted by the host's member National Authority. In the event that such disputes involve an interpretation, they shall be filed with the JB.

40. Advertising

Advertising shall be in accordance with RRS as prescribed by World Sailing for Olympic Class Boats.

40.1. A competitor may not be required to carry advertising on his boat or person in a Star Class sanctioned event.

40.2 Event Sponsorship. Permission for advertising by an event sponsor shall be subject to the following:

40.2.1 The cognizant Committee may authorize the organizing authority to permit or request such advertising, but in no event shall advertising be required on any boat, person or equipment.

40.3. The IGC may by prescription published on the ISCYRA web page modify or suspend a portion or all of this rule for one or more designated events or in designated geographical areas if it finds the suspension or modification to be in the best interest of the Star Class.

SPECIFICATIONS

1.0. EXPLANATIONS

1.1. Important - In interpreting any point not covered, or wording of obscure meaning, the TAB shall consider the intended meaning, rather than any technical misconstruction that might be derived from the wording, and shall bear in mind at all times the basic principle of the specifications which is to maintain the Star within reasonable limitations as a standard one-design class.

1.2. Dimension and Weights in these specifications are in Standard International (S.I.) metric units, except that mass is usually called weight. When not otherwise specified, measurements of lengths are in millimeters (mm).

1.3. Requirements - A yacht, its spars and sails, must conform strictly throughout with respect to design, dimensions, construction, and material, to the official plans and specifications of the ISCYRA, subject to Class Rule 33, to be considered a Star and be eligible to the ISCYRA. THE ISCYRA'S MEASUREMENT CERTIFICATE IS THE ONLY RECOGNIZED PROOF OF ELIGIBILITY TO THE STAR CLASS.

1.4. Yacht's Number - Before a certificate can be issued, a yacht's number must be permanently affixed in not less than 51 mm figures in clear view.

1.5. Options - Nothing is optional in these specifications unless the word optional appears, and then only within the limitations described, in which case that which is mentioned is that which is recommended, in points of both safety and speed. Use of a substitute, even where allowed, is always at user's risk.

1.6. Materials.Wood:

As a guide in selecting materials, the following table indicates densities of woods specifically referred to in the articles below.

Weights with 15% moisture:

Mahogany 512 kg/m³

White Oak 712"

Port Orford Cedar 481"

Red Cedar 385"

Sitka Spruce 433"

Plywood, veneer board, laminated woods, pressed wood, fiberboard, composition board, balsa, cork, and woods without sufficient strength to hold fastenings shall not be used unless specifically mentioned.

1.7. Materials- Glass Reinforced Plastic (GRP):

Long strand glass fiber material may be used with a rigid, high strength resin, provided that the glass content of the combination exceeds 35 percent of the total by weight. Rigid, low density material, such as balsa, Aerolam, or plastic foam, may be used as a core between surfaces of fiberglass laminates. All materials used must have low absorption and high resistance to deterioration when in continuous contact with either fresh or salt water. Aluminum, Nomex, or other metallic honeycomb core materials are permitted, but only for use as flat panels such as are used for flotation bulkheads and other internal hull stiffening. Such materials are not approved for hull or deck core material.

Carbon fiber, Kevlar, R or S glass fibers or other exotic materials are not allowed in any new construction or repair of GRP or wood boats

1.8. Plan Approval - Glass Reinforced Plastic (GRP) Construction:

Pre-preg fibers in any combinations are not allowed, each builder's method of construction must be approved by the TAB prior to the start of construction. The submitted plans must contain enough detail to adequately describe all materials, attachments, and the local reinforcements as well as the general construction of the hull, deck and skeg. Pre-preg fibers in any combinations are not allowed.

1.9. Recommendations - The recommendations listed in the Specifications are based upon years of experience of many Star owners and builders.

2. HULL DIMENSIONS

All Measurements for location of rudder, keel, mast, jib downhaul, Point "B", stations, and length overall start from Point "T", the mid-point of the true transom which is the fair intersection of the outside planes of the transom and the deck exclusive of moldings. See 14, Limitations and the plans for dimensions. Point "B" is on the centerline of the boat, at the height of the top of the deck edge at the sizes, 4477 mm forward of Point AT". All deck measurements are taken exclusive of moldings. Measurements are to be taken of the truly faired shape of the hull. The use of bumps and hollows at measurement points is specifically prohibited.

NOMINAL DIMENSIONS

Length Over-all 6922
Waterline length 4724
Beam at deck 1734
Draught 1016
Beam at chine 1372

3. HULL CONSTRUCTION - WOOD

3.1. Wood construction shall meet the requirements of rules 4.2, 4.3, 4.3.1, 4.4.

4. HULL CONSTRUCTION - GLASS REINFORCED PLASTIC (GRP)

4.1. Conditions- Regulations are imposed on the use of GRP construction to prevent attainment of unfair performance advantages from its substitution for wood in the structures of the yacht. In any case where there is a question as to the interpretation of these regulations, it is the responsibility of the builder to obtain a decision from the TAB prior to the start of construction.

4.2. Hull - With certain approved exceptions, the bottom, sides, and transom must be of a uniform structural mass throughout. The weight per unit area of any part of the hull, including a representative portion of any structure required to stiffen the surface, must equal or exceed 8.8 kg/m². Thickness of the glass-foam-glass sandwich shall be sufficient to provide the flotation required by Section 7.

4.3. Deck - With certain approval exceptions, the deck must be of a uniform structural weight throughout. The weight per unit area of any part of the deck, including a representative portion of any structure required to stiffen the surface, must equal or exceed 5.4 kg/m².

(Originally, GRP specifications were written in order to make GRP yachts comparable to those made of wood. With the exceptions of heavier frames and special braces, keelsons, etc., wood boats are "uniform" (i.e., uniform plank thickness and frame cross-sections). Accordingly, GRP (fiberglass) yachts are to be "uniform" in the basic lay-up of the hull and deck. The 8.8 kg/m² required in the hull and the 5.4 kg/m² required in the deck represent an average of the total weight including necessary stiffening. Thus the actual weight of a uniform lay-up for the purpose of uniform construction may be something less than the 8.8 kg/m² (hull) and 5.4 kg/m² (deck).

Because of the infinitely possible combinations of core materials, resin mixtures, different types of fiberglass cloth (weave and thickness), which would be satisfactory for Star construction, no specific lay-up has been written into the Specifications. Rather, it has been required that builders submit their construction plans and detailed lay-up schedule to be approved by the TAB before the builder begins construction. It is our view that the unit surface weight is self-limiting due to the need for hull stiffness and the constraint of overall hull weight. Too thin a surface would result in too much hull flexibility and inferior speed and durability. Too thick a surface will deprive the stiffening structure of the material required to make the boat rigid and have the same results. However there are certain conditions where either extreme might be advantageous and therefore it is essential to maintain the required uniformity. When plans are analyzed for approval they are viewed in this light. Any plan which deviates toward either of the two above extremes is rejected. All approved plans are on file in the Central Office along with sample lay-ups for the uniform construction. It is expected that these construction plans be followed by the builder and that any significant changes in the GRP lay-up that a builder may wish to use must be first approved by the TAB.

Secs. 4.2 and 4.3 provide for "certain approved exceptions" to the uniform construction. The practice of increasing the lay-up thickness and weight in addition to the uniform construction, along the bottom from slightly forward of the mast step to slightly aft of the rudder post is an approved exception. Other

exceptions would include, but are not necessarily limited to: hull to deck joints, areas where special fittings are attached, bulkhead and stiffener attachments, etc. However, these items must be shown in sufficient detail as a part of or addendum to the plans before the plans receive final approval. –TAB, 1978)

4.3.1. DECK INSTALLATION - The deck must be attached to the hull in a manner which adequately resists the torsional forces in the hull and prevents the formation of leakage through the joint. The weight per unit area of any part of the joint must equal or exceed that of the surface in which the joint is made.

4.3.2. RECOMMENDED - A flush lap joint in the surface of the hull, cemented with a rigid adhesive resin and riveted.

4.4. Local Reinforcements - The hull and deck shall be reinforced as necessary to provide adequate support of the mast step, keel, skeg, rudder, cockpit opening and rigging. Such reinforcements may be in addition to the uniform mass of the hull and deck, provided that they are not so constructed to intentionally ballast the hull.

4.4.1. RECOMMENDED - Approximately 4.5 kg of structure should be allotted to these reinforcements.

4.5 Metal Inserts - Inserts of corrosion-resistant metal may be included as part of the hull and deck for attachment of rigging, tensile supports for the mast step, or attachment of normal equipment. Such inserts must be limited to the size and number necessary to perform their structural functions and must not be so constructed or arranged to intentionally ballast the hull. The tracks for running rigging and metal parts necessary to secure the keel to the hull are not to be considered as a part of the hull or deck.

5. CONSTRUCTION DETAILS GENERAL

5.1. Rudder- Must conform in size, design, shape and position to ISCYRA Drawing "F". No concavity in profile except providing no downward extension on the skeg exists, the rudder may be joined to the skeg with a concavity extending a distance no greater than 13mm from the profiles of the skeg and rudder. May be of wood, including plywood, solid, but may be sharpened. May be of GRP or sandwich construction.

5.2. Skeg - To be rigidly attached to the hull structure.

5.2.1. DIMENSIONS - Not less than 25 thick at rudder post and not more than 32 at any point. A radius max 38 is allowed at junction with the hull. The maximum depth of the skeg at the rudder post centerline shall not exceed 432. The maximum length of the skeg from rudder post forward along the bottom contour of the hull shall not exceed 940. (Length requirement does not apply if the aft edge of the keel forms the termination of the skeg.) The contour of the bottom of the skeg can at no point be more than 26 above or below a straight line between the maximum allowable depth and length points, and may not be concave, except that the skeg may be joined to the trailing edge of the keel with a fillet of no greater than 26 radius, and may extend downward a distance of no greater than 13 from a point no greater than 13 from the leading edge of the rudder. Depth of the skeg shall be measured to the extension of its bottom line, as if such downward extension did not exist. The average weight of a skeg shall not exceed 14.7 kg/m², the skeg shall not be hollow.

5.2.2. OPTION - May be of wood, including plywood. May be of GRP or sandwich construction.

5.3. Tiller - Design and construction optional, but must be of approved materials. (not retroactive to Measurement Certificates approved before 1 January 1990). When in its lowest position, the bottom of the tiller shall be above the deck centerline when viewed in profile, both at the aft end of the tiller and at Station 8.

The TAB has approved the following materials for tillers: wood, steel, and stainless steel, aluminum, GRP.

5.4. Rudder Post - Position only as per plans, of solid stainless steel, not less than 25 in diameter, rudder to be thoroughly fastened to it. Method and material of fastening optional.

5.5. Fin Keel - To be of solid gray cast iron free from substantial imperfections. Shall conform to ISCYRA Drawing 4 and the limitations. As a rust preventative, the keel may be painted, plated,

galvanized or coated with fiberglass (GRP), provided that such coating shall have a specific gravity not greater than the iron. Keel shall not be bored or plugged to affect its weight or center of mass. The outer edge of the flange may be set flush with the true bottom of the hull, or the top of the flange may be no lower than the true bottom.

5.5.1. WEIGHT - Weight of the keel including coatings: minimum 394.5 kg, maximum 408.5 kg. A Keel Weight Certificate signed by a Certified Measurer, is required with the Measurement Certificate for any new boat or any change involving the keel.

5.5.2. FAIRING STRIPS - Fairing strips may be installed around the keel flange, but shall measure not more than 305 from outboard edge on one side to outboard edge on the other, and shall extend not more than 305 forward or aft of the flange.

5.6. Stem - Sided 76, molded as shown. The actual bow must be a true prolongation of the sides and deck and come within 35 of Point A.

6. COCKPIT

6.1. Cockpit - Open, as shown on plans. One bar or athwartship traveler, not over 76 wide at top center, is allowed. The forward end of the cockpit opening is limited with 3685 maximum forward of Point "T" and the aft end with 1605 minimum forward of Point "T".

The forward end of the cockpit opening is limited with 3685 maximum forward of Point "T" and the aft end with 1605 minimum forward of Point "T".

6.2. Options - Self bailing type allowed. Cockpit may be rounded at corners of ends and/or at crossbar, but maximum allowed radius of 305. No hatch, shelf or other device, including any part of the crossbar, which reduces the open area of the cockpit beyond the foregoing limitation, is allowed.

7. FLOTATION

7.1. Flotation - To provide adequate flotation in the event the hull becomes filled with water, the sealed volume contained in the structure of the hull and deck plus any additional volume permanently installed within the hull must equal a total of 720 liters (dm³).

At least 340 liters of this volume must be contained within the uniform weight distribution of the hull structure as required by Specs.4. Boats of wooden construction will be credited with 340 litres of flotation contained in their normal structure.

Additional flotation must be added so as to total at least 720 liters of positive buoyancy. This may be provided by sealed compartments or tanks or closed cell foam type materials. It may also be incorporated in the construction of the hull. The location of the flotation devices shall be such that the buoyancy effect is essentially balanced about Station 6 (approximately 1525 aft of the mast) for the purpose of floating the boat level or in slightly bow-up attitude.

On boats built prior to January 1, 1974, commercial buoyancy bags manufactured specifically for this purpose are permitted. They shall be installed in accordance with the manufacturer's recommendations and in such a way as to resist chafing and movement due to surging water should the boat be swamped. 1 kg of rated buoyancy = 1 liter. When buoyancy bags are employed they must be kept inflated.

8. COAMING Coaming - Optional, or may be omitted.

9. HULL FINISH

9.1. Hull Finish - Painting or coating optional, except that the application of ribbed or otherwise specially structured material (such as "riblets") is prohibited.

9.2. Refinishing - Refinishing with any coating, including GRP on wood hulls, is permitted provided that the dimensions of the hull are not changed (within the accuracy of normal measurement).

10. SPARS

10.1 Spars - Hollow spars are permitted. Concave surfaces in either transverse or longitudinal planes are not allowed, with the exception that concavities arising because of adding a track or a tunnel are permissible. Depth, including track and tunnel, cannot be more than 1 1/2 times the width (athwartships) at any section, and spars shall be no wider than they are deep at any section.

10.1.1. Approved materials as follows:

Approved Materials for MASTS and BOOMS: Wood, Aluminum alloy of at least 90% Aluminum.
For whisker poles: Wood, Aluminum alloy of at least 90% Aluminum, GRP or any combination of the above.

10.2. Measurement Bands - To be painted on spar, 25 wide, of contrasting color. Where spars are too short to include full 25 width band, entire end of spar must be painted contrasting color except that where spars end exactly at measurement points or are shorter, no measurement band is necessary. Spars are to be supplied with permanent stops or limits to prevent sail from being extended past bands. A masthead halyard lock is a permanent stop.

10.3. Mast - Maximum height from Point "B" to bottom edge of upper band, 9652. Upper edge of mainsail headboard shall not extend above this point. Minimum height from Point "B" to upper edge of lower band, 381. Bottom of groove in boom, projected if necessary, shall not extend below this point.

Minimum section from 991 above Point "B" to 5105 above Point "B" is 57 x 70. Minimum section weight between these limits is 1.34 kg per linear meter.

Tapering is allowed from 5105 above Point "B" to top, except that wood masts may be tapered in any way provided that they conform to depth-width ratio at all sections. Minimum section is 32 x 32.

From heel of mast to 991 above Point "B", mast section is optional.

Forward face of mast from Point "T": min. 4420, max. 4680.

Mast may have one luff groove. Rotating masts are not allowed.

10.3.1. RECOMMENDED 57 x 70.

10.3.2. SPREADERS of any approved material. Size, design and number are optional.

10.3.3. TIP WEIGHT - A fully rigged mast must have a tip weight of 7 kg or more when measured as follows:

(a) Halyards are in sailing position and mast is horizontal.

(b) Mast is supported at the upper edge of lower measurement band on sawhorse or other suitable pivot.

(c) All rigging is tensioned so that none of it above the lower measurement band sags lower than 600 mm below the spar or touches the ground. Tying with light twine is permitted.

(d) All rigging extending below the measurement band is draped over the sawhorse.

(e) The mast-head fly, if any, is left in place.

(f) A scale reading of tip weight is taken at bottom edge of upper measurement band.

Make-up weight to meet tip weight may be added at any location on the mast provided that it is permanently fastened.

10.4 Boom - Maximum distance from forward face of luff rope groove on mast, extended if necessary, to forward edge of measurement band, 4445.

Boom may have one foot rope groove.

10.4.1. CUTOUTS in the boom surface:

(a) Aft end of the boom may be tapered by cutting away the bottom of the section a maximum of 685 mm forward of the measurement band. This taper may not be concave when viewed in profile.

(b) Cutouts are permitted for proper clearance to pass lines and wires.

(c) No other cutouts are permitted.

10.4.2. On booms manufactured after 31 Dec. 1990, no portion of any external surface located more than 25 from the center of the foot groove shall have a radius of less than 19 except in way of cutouts.

10.5. Whisker Pole - Length min. 2286, max. 2896, measured at greatest extension from surface of mast when whisker pole is in place to outboard point on pole where the jib or jib sheets are constrained. Length may not be adjustable.

10.6. Reefing Equipment - Not allowed.

11. RIGGING

11.1. Jibstay - Shall be of steel or stainless steel not less than 2.29 in diameter and shall intersect the forward side of the mast min. 6782, max. 6934 above Point "B", and shall intersect the deck at a point min. 6610, max. 6712 forward of Point "T". For the purpose of these measurements, it shall be assumed that the jibstay intersects the mast at an angle of 17E. The jibstay must be carried outside the jib, must be kept fastened at all times, and may be slacked only enough to allow the jib luff wire to take the greater strain. The Jibstay may have a firmly fitted tube or coating totaling a maximum of 7,2 mm in diameter.

If the jib can be attached without disconnecting the jib luff wire (for example by hanks or tabs), then the use of only one headstay is permitted provided that it meets the above jibstay specifications.

The Jibstay may have a firmly fitted tube or coating totaling a maximum of 7,2 mm in diameter.

11.2. Other Rigging - All standing rigging shall be of steel or stainless steel. Running rigging, including the backstays may be of any material.

12. SAILS

12.1. Sails - Allow polyester woven material not lighter than 3.7 ounces per sailmaker's yard, (0.158 kg/m) for mainsails and polyester woven material not lighter than 4.7 ounces per sailmaker's yard for jibs. The mainsail shall carry a 406 diameter red star, with the yacht's number beneath or on the leech. The numbers shall be not less than 381 in height and occupy a width of not less than 254 per numeral (except for the figure 1), the strokes having a thickness of not less than 64.

There shall be a space of at least 102 between consecutive numerals. Numbers must be clearly legible on both sides of the sail, and should not be back to back. Jib booms or clubs, roach reefs, double luff mainsails, loose-footed mainsails, and perforated sails are barred. Unwoven transparent panels, not exceeding 1.25 m² in total area, are permitted below half height in any sail. Only mainsail and jib are allowed. Reinforcement, of any fabric having the effect of stiffening the sail, is permitted. This reinforcement shall be capable of being folded. Other reinforcement, as a continuation of corner stiffening or elsewhere, is permitted provided that it can be folded and is not stiffened by the addition of bonding agents, close stitching, or otherwise. Glued seams shall not be considered stiffening provided that they can be folded as described above. National letters, if displayed, shall be affixed to the mainsail in accordance with the official class sail plan.

12.2. Mainsail - Length of luff and foot governed by measurement bands on spars. See 10.3 and 10.4. Roach and draft governed by cross width from middle of leech to nearest luff point including bolt-rope, which shall not exceed 2807, the roach of leech having a normal curve. A normal curve is defined as a smooth curve that deviates no more than 13 from a straight line between battens. Roach and draft governed by cross widths not exceeding 2807 from the middle of the leech and 1665 from the three quarter point of the leech to the nearest luff point including bolt-rope. The roach of the leech shall be defined as a smooth curve that deviates no more than 13 from a straight line between battens.

Maximum dimensions:

Leech 9779

Headboard, perpendicular to luff 114

Distance of advertisement or sailmaker's mark from corner 610

12.3. Jib

Maximum dimensions:

Luff 6299

Leech 5486

Foot 2235

Advertisement radius 337

Leech, roach, and draft shall be governed by measurements taken across the jib from points 500, 2000 and 4267 mm down leech and luff from the top of the measurement triangle. These cross measurements shall not exceed 275 mm, 875 mm and 1600 mm respectively. Leech and foot curve must not have concavities except that the leech may be hollow between battens. This hollow shall not exceed 15 mm. Headboards are not allowed. Clew boards shall be permitted only within a distance

of 76 from the apex of the clew. For measurement all the corners of the jib must simultaneously fall within a triangle of the above dimensions, and no portion of the sail shall fall outside of the triangle for at least 76 from any corner of the triangle. Foot roach shall not fall outside the measurement triangle more than 76 at any point. The center of the grommet or thimble to which the halyard attaches shall not be farther than 38 from the luff of the jib. Cunningham not allowed. Tack of the jib shall at all times be fastened within the jibstay location and on centerline of the boat. Jib may be set flying, but a jibstay is obligatory and luff wire in the jib shall not be considered a jibstay, except as provided for in Sec. 11.1.

12.4. Battens - Mainsail: Four in mainsail spaced on leech as per plan. Upper batten, no restriction on length, all others not more than 1219 mm. Material GRP. Jib: Three allowed in jib, located as per sail plan, top batten pocket not to exceed 488 mm, 2 lower batten pockets not to exceed 598 mm. Material GRP. Batten pocket inside width not more than 50mm.

12.5. Measuring - Sails shall be measured in accordance with the requirements of Star Class Rule 32.

12.6. Sail Royalties - An ISCYRA sail royalty button must be permanently affixed to every mainsail and every jib. It is the obligation of the sailmaker to buy these buttons from the ISCYRA Central Office at \$50 USD each. No sail can be used for racing without a button: it is not a Star sail unless the royalty button appears thereon.

13. WEIGHT

13.1. Minimum weight of boat with all rigging, mast, and boom and including all items permanently fastened to the hull, including removable wooden floor boards not exceeding 11.3 kg. Shall be not less than 671 kg. Permanently fastened floorboards are not allowed. In the event that the weight of the boat is less than this amount the difference shall be made up only by the addition of any material securely fastened to the underside of the deck. Material shall not be added or built-in to standard members or hardware for the sole purpose of obviating such correction.

13.2. In addition, the hull must comply with the following: The weight of the hull and attached deck must exceed 190.5 kg. If the skeg is also included, the weight of the total assembly must exceed 192.5 kg. Included with the hull in these weights are exclusively the chainplates, jibstay attachment fitting, the mast step with its supporting structure, built-in bulkheads and deck supports, a keelson (optional in GRP hulls), the rudder post tube and flotation.

13.3. If additional material is added to make up weight, as required by Section 13.1, such material shall be sealed by a Certified Measurer. The seal or seals applied shall be impressed or attached such that no part of the material can be removed without irreparable damage or destruction of the seal. Seals shall be distinctively marked for identification. If no additional material is required under Section 13.1, a seal as above shall be attached within the hull. A boat must bear such seal or seals to be in conformance with measurement rules.

14. LIMITATIONS

In addition to the foregoing, there shall be permanently affixed to the after end of the cockpit coaming a plaque stating the amount of the additional material, if any, so affixed.

Yacht shall be measured on keel, with spars and rigging removed, or with rigging slack, and hull unsupported; and in accordance with instructions issued to Certified Measurers by the TAB. Measurements shall be recorded on the ISCYRA measurement form. Although only certain specific points on a Star are regularly measured and appear on the measurement certificate, it shall be thoroughly understood that any point may be measured, at the discretion of the ISCYRA TAB, and shall be in accordance with plans, specifications, and the following limitations.

14.1. Hull

14.1.1. Hull shapes must conform to limitations shown on ISCYRA Lines Drawing No. 1 and these specifications. No hull waterline, when viewed in plan, shall have a concavity. *Not retroactive to Measurement Certificates approved before 1 January 2016*

14.1.2. Deck shape at cockpit edge must conform to limitations shown in ISCYRA Drawing 1.

14.1.3. Discontinuities in Deck Surface. Certain portions of the deck surface may be grooved or

raised provided that the construction ensures that the structural integrity of the deck is as if the deck were one piece without the discontinuities. No fitting or deck discontinuity shall extend, or be mounted, below or outboard of a line defined by the extended surface of the sides or transom. A jib sheet or main sheet when led from the sail or boom to the deck must lead through or attach to a fitting which is mounted on the deck or to a car on a track that conforms with the requirements of this Section. Further, the deck may not be depressed below its normal arc shape in way of such a fitting attached to the deck. No sheet may pass below tangent with the normal deck surface in way of such a fitting. Provided that the above requirements are met, it is permitted to lead the main sheet to a block on the bottom of the interior and thence forward to the cockpit.

Only those discontinuities listed below are permitted.

(a) Depressed Portions.

Slots and grooves are permitted for handholds and for proper clearance of wires and lines emerging from below decks, provided that they do not violate the integrity of flotation compartments, and for installation of tracks for athwartships and/or fore and aft movement of fittings. Any fitting mounted on a track shall not be lower than the same fitting mounted on the normal deck surface. Nor shall the track which carries such fitting be mounted so that the upper track surface is below the normal deck surface. Small drain holes are permitted.

The following fittings are included:

1. Jib travelers, including bridge type.
2. Mainsheet travelers.
3. Running backstays.
4. Boom vang (circular type).
5. Boom vang (dingy type). A semi-circular truncated cone shaped depression is permitted in the deck at the after end of the mast partner slot provided the inside radius is no more than 254 mm and the depth is no more than 51 mm.
6. Hiking vest attachments.
7. Side deck depressions which house cleats for control ropes on both sides of the cockpit.

(b) Raised Portions.

The following items are permitted:

1. Mainsheet traveler (outer ends).
2. Backstay tracks (forward ends).
3. Shroud tracks.
4. Vang tracks.
5. Mast partner openings (all around).
6. Spray rails.
7. Cleat mountings.
8. Winch mountings.
9. Turning blocks.
10. Nonskid portions of the deck.

14.1.4. At most two watertight hatches, not larger than 153 clear-opening diameter, and essentially flush, are allowed in the deck. Only one is permitted in the foredeck and one is permitted in the afterdeck.

14.2. Through-hull Bailers and Drains - Optional

14.3. Measurements

14.3.1. Dimensions are to be taken to points defined at the intersections of or fair extensions of the limiting adjacent surfaces or edges.

Hull Station 1 is 6401 forward of "T". Hull Station spacing is 686.

DIMENSION AT - Distance from Point "T" to extreme forward edge of deck mast opening, (the most forward point to which mast may be moved at deck). Min. 4426, max. 4680.

DIMENSION B - Distance from aft extremity of deck (exclusive of molding) to aft side of rudder post at deck. Min. 1143, max. 1194.

DIMENSION C - Horizontal distance from aft plumb bob (exclusive of molding) to aft side of rudder post where it emerges from hull bottom. Min. 1272, max. 1329.

DIMENSION E - Horizontal distance from aft plumb bob (exclusive of molding) to point on hull bottom which would be intersected by aft edge of keel fin if extended upwards. Min. 2150, max. 2170. (Not retroactive to Measurement Certificates approved before 1 January 2015.)

DIMENSION OT - Distance from Point "T" to intersection of jibstay with deck. Min. 6610, max. 6712.

DIMENSION P - One half width of cockpit. Min. 288, max. 311.

DIMENSION R - Length of cockpit. Min. 1949, max. 2064.

DIMENSION T - Angle of transom in degrees from aft plumb line. Min. 15E, max. 21E.

14.3.2. KEEL

(a) Keel Station 1 is defined as the intersection of the keel bottom plane and the line of the leading edge extended downward. All other keel stations are at 152 intervals from Keel Station 1.

(b) Except for Keel Station 1, the maximum width of the bulb at any station shall occur between 76 and 127 above the keel bottom plane.

(c) All keel radii, when viewed in profile, shall be as shown on the keel drawing plan plus or minus 33% of the drawing value.

(d) All keel bottom radii, when viewed in cross-section, shall be between 19 and 44.

(e) No keel waterline, when viewed in plan, shall have a concavity.

(f) Drawings for all new keel patterns must be submitted to the Chief Measurer for prior approval.

DIMENSION K-1 - The length of the fin at a height 406 above the bottom of the keel. Min. 1143, max. 1169.

DIMENSION K-2 - The length of the bulb at a height 102 above the bottom of the keel. Min. 1212, max. 1238.

DIMENSION K-3 - The horizontal distance from a plumb bob dropped from a position on hull bottom which would be intersected by aft edge of keel fin to the aft edge of the keel fin at a height of 406 above the bottom of the keel. Min. 32, max. 54.

DIMENSION K-4 - Length of keel fin from a point 76 below hull at aft end to a point 76 below hull at forward end. Min. 1349, max. 1375.

DIMENSION K-5 - Thickness of keel fin at thickest point. Min. 19, max. 26.

Dimension K-6 - Vertical distance from bottom of hull at Station No. 6 to bottom of keel. Min. 762, max. 781. The maximum radius allowed in joining the keel flange to the keel fin, measured in an athwartships plane, is 38.

DIMENSION K-7 - Thickness of keel bulb at thickest point. Min. 209, max. 222.

DIMENSION K-8 - Maximum height of the bulb from the bottom of the point on the keel to the fin where it just begins to thicken toward a transition with the bulb. Min. 286, max. 311.

DIMENSION K-9 - Vertical distance from bottom of hull at aft end of keel to bottom of keel. Min. 800, max. 826.

DIMENSION K-10 - The horizontal distance from Keel Station 1 to a plumb line dropped from a position on hull bottom which would be intersected by aft edge of fin keel extended upward. Min. 914, max. 965.

DIMENSION K-11 - The breadth of the keel bulb at the point 51 aft of the leading edge at waterline 4. Min. 77, max. 144.

DIMENSION K-12 - The breadth of the keel bulb at the point 51 aft of the leading edge at waterline 6. Min. 81, max. 152.

DIMENSION K-13 - The breadth of the keel bulb at the point 51 aft of the leading edge at waterline 8. Min. 65, max. 122.

DIMENSION K-14 - The height of the keel bulb from the keel bottom in vertical alignment with intersection of aft edge of keel fin at hull bottom. Min. 244, max. 315.

MEASURING THE STAR CLASS BOAT

The information in this section is provided by the TAB for those owners, builders, and fleet or regatta measurers wishing to understand the principles of ISCYRA measurement. Certified Measurers are provided with additional information, and have developed special measuring techniques, so one of them, or the TAB, can provide more detailed information than is presented here, if needed.

PRINCIPLES OF MEASUREMENT

Since the construction of a Star must conform to ISCYRA plans and specifications, and certain construction details require prior approval, the measurement procedure is a series of selected dimensional checks to ascertain that the boat actually conforms to the plans and specifications. Thus, measurement is a verification process, not a detailed physical description of the boat. When a new boat is completed, it is measured by a Certified Measurer. If his data indicate that the boat complies with the plans and specifications, the TAB will grant a Measurement Certificate, and the boat becomes eligible to the ISCYRA (STCR 33).

Certain measurements are often required for entry in championship and other series, and non-sanctioned events, such as Olympic Regattas, may have special measurement requirements for eligibility (STCR 32). This type of measurement is conducted by appointed regatta measurers or the TAB. While regatta measurement requirements vary, the types of measurement and techniques used are the same as for certification measurement.

There are four main categories of measurement:
 Measurement of Hull, Keel, Skeg and Rudder
 Measurement of Spars
 Measurement of Sails
 Weighing

In each category, physical data are obtained by the measurer for comparison with allowable maxima and minima.

MEASUREMENT OF HULL, KEEL, SKEG AND RUDDER

Many of the Measurements in this category are taken on an imaginary three-dimensional grid whose position is specified. A base plane is established either optically or mechanically in an accurate position relative to the hull, roughly parallel to the waterline, and located a few centimeters below the hull bottom. Various height measurements are taken perpendicular to the base plane; most lengths and breadths are taken parallel to it. For example, "Keel Heights"

are perpendicular distances from the base plane of specified points on the hull bottom.

The Star is measured in an upright position, with base plane level and the hull supported on the keel (Spec. 14). Some flexion of the hull occurs due to its own weight in this position, but conditions are equalized for all boats measured. Certain critical keel and rudder post measurements are taken parallel to the base plane, so even if only these appendages are to be measured, an accurate base plane must be established. Measurements called for in the ISCYRA Regatta Measurement form, on the other hand, do not require the establishment of a base plane.

Rudders are measured by use of a transparent template available from ISCYRA. Since rudder shape controls are referred to the hull, rudders cannot be properly measured off the boat (Drawing "F"). In addition to shape and height limitations, a minimum radius is specified for any curve of the rudder profile. Skeg measurements are described in Spec. 5.4.

Because virtually every radius in the hull, keel, skeg and rudder is controlled, great care should be taken in fairing a Star that all radii remain in compliance with the controls. Radii can be checked with appropriate radius templates.

Aid of non contact measurement instruments to define the dimensional checks conform to ISCYRA plans are allowed.

MEASUREMENT OF SPARS

Mast lengths are measured from Point "B", which is a point in the hull, not a point on the mast (Spec. 2). The distance in the hull from the mast step to Point "B" is measured and then transferred to the butt of the mast, and the required heights are checked. In fitting a new mast to a boat, care must be taken that the lower band is not less than the minimum height above Point "B", as well as observing height limits.

Boom length is measured to the forward face, that is, the "bottom" of the luff groove in the mast. It is most convenient to measure this with the boom attached. Care must be taken that the measuring standard reach into the luff groove and touch bottom.

MEASUREMENT OF SAILS

Sails are measured to determine compliance with Specifications 12. As well as materials and all dimensions, sails are checked for numbers, insignia and honors, royalty labels, batten pock-

ets, "windows", and all other items specified.

When sails are measured for a championship series or other regatta, and found to comply, they are indelibly and distinctively marked by the measurer. Only sails thus marked may be used in the series.

Drawings are provided in this section to assist in laying out measurement triangles and measuring sails.

Several aspects of the Star are subject to weight control. Sails and parts of the hull, keel and skeg are controlled as to unit weight. Keel, hull and complete boat must meet minimum total weight standards, rigged masts must have a minimum "tip weight" (Spec. 5, 10, 13). Weight of the complete boat and mast tip weight are regularly checked at championship and other series. Yachts are weighed for certification in accordance with Spec. 13.3.

The most desirable scales for these uses are the electronic "load cell" type which give accurate readings with excellent replicability. Various spring and lever types are also used. While scales should be calibrated with test weights to ensure accuracy, the most important characteristic for fairness in regatta weighing is replicability of readings. This should be checked by weighing the same boat, or mast tip, several times before, and, if possible, during the measurement procedure. The scales should give very nearly the same reading at each re-weighing. If differences are noted, the scales should be repaired or replaced.

If corrector weights are necessary due to non-compliance with specified minima, the measurer must ensure that these are installed properly and permanently, and weight seals per Spec. 13.3 are in place.

CERTIFICATE

The Measurement Certificate is as much an essential part of a Star as a mast or sails (Spec. 1). Since the Certificate is the boat's proof of eligibility for competition at any level, it must always be current as to ownership information, and be kept readily available. Original copies of the Measurement Certificate are maintained, and duplicates are available for \$10 USD upon application to ISCYRA.

EXPERIMENTS, PECULIARITIES, AND DISCREPANCIES

Technical improvement in the Star have been made during every period of its long history. Most, if not all, are the result of thoughtful experiments by owners seeking to make their boats safer, stronger, and above all, faster.

Often such experiments take place in the area of control systems or rigging not limited by the Specifications, in which case measurement procedures are not involved. On the other hand, modifications to areas which are controlled require re-measurement and re-certification before the boat is eligible to compete again at any level. The assistance of the TAB, the Chief Measurer(s) and the Certification Measurer(s) is available to owners contemplating such modifications, and should always be sought to ensure continued eligibility.

Some modifications or construction errors may be termed peculiarities in a boat. Spec. 1 and 14 make it clear that such deviations from the standard for a Star are not permitted. Measurers, as well as owners, should be alert for any peculiarity in a boat which might not comply with the intent of the Specifications, and seek the assistance of the TAB, the Chief Measurer(s) and the Certification Measurer(s) in determining whether this is the case.

Discrepancies are actual instances of noncompliance with the Plans and Specifications. No boat having a discrepancy is eligible for competition as a Star at any level (Spec 1). Discrepancies should be corrected immediately to avoid any possibility of an ineligible boat being sold as a Star or entered in competition.

In any series the TAB, the Certified Measurers and the Event Measurers are requested to pay attention to possible discrepancies and, in case of evidence, to arrange for adequate correction. In any series, the TAB, the Certified Measurer and the Event Measurer are responsible for the total observance of what is stated in the previous paragraph.

DEFINITIONS

Certain terms related to measuring the Star Class Yacht are defined below for assistance in understanding measurement principles:

BASE LINE. A line in the Center Plane having a perpendicular distance from the hull bottom at Station 10 of 390 and at Station 1 of 486. Hull Stations are located on the Base Line by measuring forward from the intersection with a line perpendicular to it which passes through Point "T".

BASE PLANE. A plane perpendicular to the Center Plane, and containing the Base Line.

CENTER PLANE. A plane containing the centerlines of the deck and bottom, the axis of the mast, the center plane of the keel fin, etc.

NOTICE TO BUILDERS AND SAILMAKERS

WARNING

It is impossible to foresee every conceivable innovation which may be thought of in the future and to mention every suggestion that has been ruled illegal in the past. When considering anything in connection with the boat or its sails or equipment which is not within established practice in the International Star Class or is not clearly covered by plans or specifications, you must assume that it is illegal, and must obtain a ruling from the Technical Advisory Board before attempting it.

Builders

In order to obtain a license to build a Star boat, and therefore be considered an active builder, a builder must conclude a License Agreement with the International Star Class Yacht Racing Association (ISCYRA) and submit to the Technical Advisory Board (TAB) the following:

1. Hull Construction and lines drawing
2. Lay-up schedule and samples of lay-up
3. Drawing of keel, rudder and skeg
4. Construction of mast, boom and rigging.

Moreover, a full boat measurement has to be performed at least every four years. A minimum of three measures have to attend the boat measuring procedure: a Certification measurer, a TAB representative and a qualified third party measurer.

No number or measurement certificate can be issued until the above items have been approved by the TAB. If a builder changes his construction he is required to submit the concerned drawings or samples to the TAB for approval. After the License is granted no changes may be made to the hull, deck or keel shape without the licensee submitting a change order to the ISCYRA for approval. No change can be made without approval from the ISCYRA.

New Construction Methods and Materials

In keeping with the ISCYRA's long standing policy of seeking more economical means of building yachts, it is believed to be in the best interests of the ISCYRA to actively seek new methods or materials while at the same time maintaining the competitive value of all existing yachts. To that end the following guidelines are intended for those members seriously interested in undertaking such developments, which will ultimately foster the growth of the ISCYRA.

1. A member may request, in writing, permission to build one prototype yacht of non-specification materials and/or construction methods. His proposal should include a general statement regarding the estimated costs and benefits to be derived, drawings, sketches, etc.

2. The Class Management Committee (CMC), acting with the advice of the TAB, will grant the builder the right to qualify for a provisional measurement certificate for a prototype yacht, provided that the following conditions are met: (a) Upon completion, the prototype yacht meets all specifications for hull shape, uniformity of construction and weight. Also flotation must be proved by test.

(b) A full disclosure of the details of construction is made to the TAB including, among other things, scantlings, material specifications, special assembly techniques, photos of the construction process, and costs.

3. The provisional certificate will authorize that prototype yacht to qualify for all races except Silver and Gold events.

4. Full disclosure of racing results and an analysis of same certified by a fleet or district officer are to be submitted to the CMC upon completion of a representative number of races.

5. A final measurement certificate will be issued if the Class adopts that method of construction through its normal procedures of a fleet resolution, TAB approval, annual meeting approval and membership vote. Such approval will be granted provided that the construction of the prototype yacht does not vary to any substantial extent from the specifications finally adopted.

6. On the recommendation of the TAB, a permanent measurement certificate may be granted to any specially constructed yacht by the CMC.

Conditions Governing Sale of Plans and Specifications

These conditions must be strictly enforced in the interest of keeping the Star a one-design class and to protect the prospective buyer of a new or second-hand Star from any intentional or unintentional misrepresentation concerning the boat's eligibility.

This notice accompanies all official plans and is made a part thereof. It is the full text of the condensed agreement of sale that appears on each plan.

Work only from official plans. Never copy the dimensions of another Star or its measurement certificate; sag or warpage of an old hull can be misleading, also the specifications are subject to occasional revision.

AGREEMENT

Whereas the International Star Class Yacht Racing Association (ISCYRA) owns all right and title to, and interest in, the design of a Star Class yacht and whereas official plans and specifications may be purchased conditionally from the ISCYRA;

now therefore it is understood that the purchaser, by accepting and retaining the said plans, agrees to the terms and conditions herein:

USE OF PLANS. Plans shall be used only in connection with the construction of Star Class yachts and their sails and accessories. The purchaser agrees not to resell, lend for publication or any other purpose, or transfer in any manner the plans or copies thereof, without authority in writing from the International Governing Committee (IGC) of the ISCYRA.

INELIGIBILITY. Unless a yacht and its sails conform to the plans and specifications, within the allowed limitations, it shall be barred from the ISCYRA. The ISCYRA reserves the right to bar any yacht or sail constructed by a firm or individual who is not recorded with the ISCYRA as possessing official plans, or who fails to comply with any of the conditions herein.

COST OF PLANS. Complete set of plans, \$40; any single plan, \$10; Rudder template, \$20. Plans cannot be lent, nor sent on approval or credit.

NUMBER TAX. Builders are required to pay a tax of \$500 on each yacht built when applying for a number on Form R-1. A number will not be issued unless the yacht is actually under construction and the name and address of its

owner are given. Yachts being built for stock should be reported but will not be issued numbers until complete and ready or measuring. For the purpose of identification, the number must be cut into the upper side of the keelson (or if the boat is fiberglass without a keelson, then cut permanently embedded at a location as near as possible to where they would be if the boat had a keelson), before the boat is measured. This number may be revoked if the yacht is not measured or is unable to obtain a certificate within a reasonable time.

SAIL ROYALTIES. An ISCYRA sail royalty button must be permanently affixed to every mainsail and every jib. It is the obligation of the sailmaker to buy these buttons from the ISCYRA Central Office at \$50 each. No sail can be used for racing without a button: it is not a Star sail unless the royalty button appears thereon.

REMITTANCES. Remittances for all of the above must be made payable to and sent to the ISCYRA at its Central Office. Sums stated are in USA currency, net in the stated Account of the ISCYRA.

KEEL WEIGHT CERTIFICATE. A keel weight certificate must be furnished by the builder to the measurer. It may be obtained from a public scale or such other source as the measurer will accept.

REVISION OR SPECIFICATIONS. It is the responsibility of those who construct Star yachts or their sails or accessories to keep advised as to possible annual revisions of the specifications.

100 YEARS OF GOLD STARS

1922-2022

CAROL NEWMAN CRONIN

There is something about those days just before a World Championship that grips one. The arrival of each yacht by truck, steamer, sail, or under tow, causes a little thrill in itself. Each is inspected and commented upon, as its crew adds the last finishing touches to an already perfectly conditioned hull. Little groups gather to watch the measuring of sails, and every hour rings in more contestants, spectators, and officials. Even newcomers soon feel that they are the lifelong friend to everyone else present.

As the time draws near, the undercurrent of excitement increases.

Officials dash madly about, trying to attend to every last little detail to the intricate machinery necessary to run this gigantic event. In every corner of the Club, little groups can be found discussing the chances of different entries. So it is each year - and yet there is something about this scene that is just as inspiring and impressive, no matter how many times you may have witnessed it.
