SEPTEMBER, 1973

FLEETS: 197

By John R. McGann

The newly formed (1972) Twenty-first District, U.S. Rocky Mountain States, held its first Blue Star Championship on Lake Alcova, Wyoming, in July, 1973. William Kieser, secretary of the Carter Lake Fleet and one of those instrumental in organizing the district, took first place with a 2-4-1 in a variety of conditions. The first race was in moderate winds except for sharp gusts up to 40 miles per hour. The second was a drifting match, with nearly everybody taking the lead at one time or another. The third was a repeat of the second except for the last leg, sailed in a nice breeze; *Restless* caught it first to polish off the rest of the fleet by a half-mile at the finish.

FIRST DISTRICT JUNIORS

By M.S.B. Brown

The second annual sailing of the First District Junior Championship, an introductory-promotional-fun affair for all under 20, was again a success as 17 entries from 4 fleets, sailed at Milford, Connecticut. The first five skippers received trophies for their efforts, last year's winner just missing out with a sixth.

The Juniors had some real senior weather for Saturday's two races, the first in a fine 22 knot southwester with four foot seas. Young Fowler won the opener in Larry Shaper's new Meier boat but was eliminated by a broken halyard in the second race, the other three Sea Cliff contenders moving in to take series honors in the first three places.

J. Yacoe, who crewed with Billy Burtis last year, came on strong with Peter Beam's beautifully refinished 4286, *Arriba*, to win with a 3-1-1, always just one boat ahead of Burtis, who thus took second in his try for the trophy that his Dad (Alan) had won in 1948.

The third race (Sunday) was postponed for an hour because of a line of thundersqualls moving up the Sound, but was then sailed in a moderate easterly. The heavy weather Saturday had taken its toll, leaving only ten starters to brave the gloomy weather on the last day. Courses were triangle followed by windward-leeward.

At a cook-out after Saturday's racing all contestants were awarded T-shirts emblazoned with "First District Junior Championship" and a Star boat profile, compliments of the District Secretary. The other popular take-home token for all was a copy of the new Class brochure booklet.

1974 LOG

Now is the time to round up all available racing reports that have not previously been submitted to *Starlights* and forward them to the central office, address on the masthead, as soon as possible.

To date we have virtually no photographs for the 1974 LOG. Where is that good one that you saw the other day? If it was in the local newspaper, ask the sports editor for it: he will usually give it to you at no charge for the promise of a credit-line for his paper, which we are glad to provide in the LOG. If it was on the club bulletin board, obtain a copy from the photographer and send it along.

The deadline for all material for the LOG is November 30, 1973.

STARDUST

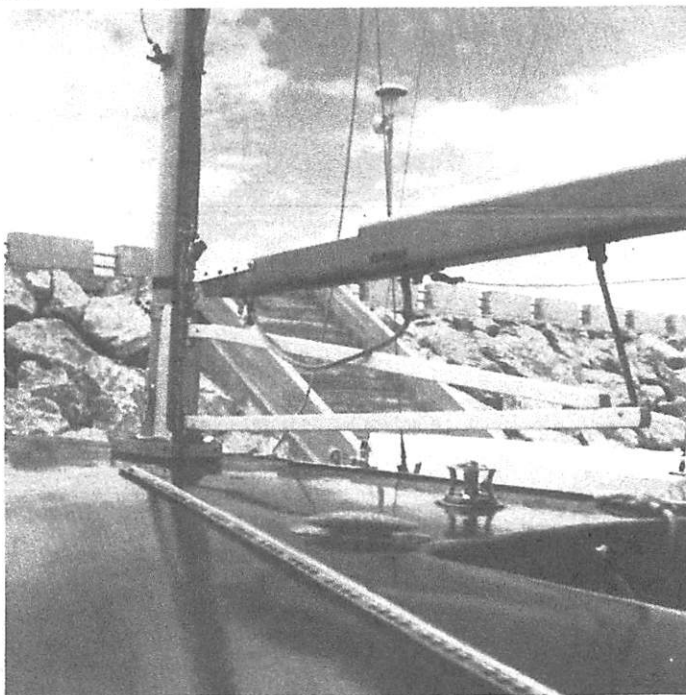

In an immense fleet of 54 starters, Heinz Maurer and Werni Meier won the 1973 Championship of Switzerland at Rapperswil on the Zuerichsee, in the boat used by David Forbes to win the Olympic gold medal. *Schwierige, wechselnde Windverhaeltnisse* (which I think means tricky and difficult wind conditions) prevailed in every race. Second was *Fiamma*, Oskar Meier and his long-time crew Dan Wyss and it is not necessary to translate anything to know that Oskar is our energetic and enthusiastic chairman of the International Governing Committee. Third was skipper Peter Wyss with crew Hans Wohnlich in *Penelope*, and Hannes Gubler and Wil Spellbrink took fourth.

★

Peter Beam of SLIS, with his wife crewing, won the 1973 sailing of the Great Captain Island race when the breeze folded and everyone else in a fleet of ten boats folded also. The Beams were in second place at the time, and they kept going to the end while the others paddled home (or toward home) at sunset. This would seem to be in the most worthy tradition of a long distance race, which is meant to be a test of stamina and perseverance when the occasion demands. The race has no time limit, and the circular requires the carrying of running lights.

★

Here's a slightly off-beat rules situation that might be worth knowing about before you get hove out of an important race by some alert competitor or race committee. Suppose your bow is

Der Otto, No. 4836. Eurostar cantilever boom
 vang on wood boom; Bello hollow winch.

S. Andrews

over the line too soon at the flag end, and in your efforts to delay till gunfire you also hit the flag - a fairly common occurrence. Most skippers seem to think it is enough to re-round the flag once and take off. Not so: you would have had to do that if you had either hit the flag or been over too soon. Since you did both, you must come around the flag once (or return some other way) to re-cross for being recalled, and then round once more as a penalty for touching the mark. Authority: Case 42, IYRU Interpretations.

★

Starlights is now being sent by direct first class air mail to every member outside the continental United States each month. For the first time, all members are now receiving their copies within a few days of publication, instead of, in some cases, many weeks or even months later.

★

After making one of my customary blunders the other day I apologized to my crew, who is also a skipper in his own right. "Never apologize," he told me. "Don't you know that on a racing boat there are only two rules?"

"Rule 1 - The skipper is always right.

"Rule 2 - In case of doubt, refer to Rule 1."

★

Honolulu banker Charles Dole, named Yachtsman of the Year by Hawaii's major yacht clubs, was recently presented with the Clarence MacFarlane Trophy in token thereof. Long an active and successful Star sailor, Charley Dole is also prominent in the North American Yacht Racing Union. He is well known to many Star members because of his frequent visits to series in the continental United States, his most recent participation in a World's Championship being at Seattle in 1971.

MAIBOCK REGATTA

The tenth sailing of the Maibock Regatta on the Chiemsee in Bavaria drew 44 starters and good winds. Eckart Wagner won handily with two firsts and a second, with Hannes Schwarz the runner-up and Ortwin Semmerow of Berlin third. Thanks go to Fritz and Lisa Riess, who did much of the arranging, including an excellent beer party with Schweinsshaxn. Point summaries are given below; (boat names were not reported).

DR. PAUL GORDON

We very regretfully report that Dr. Paul Gordon, a temporary resident of Chicago, Illinois, and an Australian citizen, lost his life in Lake Michigan as a result of the sinking of Star No. 5648 off Chicago, in a Jackson Park Fleet elimination race on June 16, 1973.

When the wind squall struck, the combination of the bull-ring vang in a fairly tight condition and the curved cockpit coaming caused the boat to swamp when the mainsail would not ease.

1973 European Spring Silver Star, at Malcesine, Lago di Garda.

Toninelli

Flotation supported the boat for about 30 minutes in the extremely turbulent sea. However, the fastenings holding the stern flotation bag ripped out of the hull, permitting the stern bag to pop out, whereupon the boat sank. The skipper and crew then floated half supported on the leaking air bag for 45 minutes. As the air gradually seeped out of it, the bag became inadequate to support two people. The skipper finally left it for the crew to hang on to, and despite severe leg cramps was able to reach a water intake station on Lake Michigan, 300 yards away. The crew, Dr. Gordon, did have a life jacket in his hands at the time the vessel went down, but he was not wearing it and it blew away.
