PROPOSED TEXT:

27. Scheduling and Number of Races

27.1. ISCYRA World Championship (shall going complett in 27.1.1.!)

27.1.1. The ISCYRA World Championship (a Gold Star event) shall consist of a minimum of six completed races. A race postponed, abandoned or incompleted will be rescheduled and resailed as soon as possible. There shall be two reserve days for possible resails. A series not completed at the end of the second day following the date of the last regularly scheduled race shall be canceled.

Notwithstanding the foregoing, if five races have been completed in a series which would otherwise be canceled pursuant to the preceding sentence, and if the leading boat has scored finishes which render it mathematically impossible for any other boat to defeat her even if a sixth race were sailed, then the series should count as the World Championship.

[NEW] 27.1.2. After 2 days sailing only receiving not more than 1 race, including 1 reserve day, the RC is empowered to change the following races from Format A to Format B. The RC post this change to the competitors on the official notice board.

REASON:

For the planning of a Gold- or Silver-event it's much more difficult to get a regatta-team for more than 5 up to 7 days. We must make our regattas more planable! It saves money and time. The 2 reserve days are not the best solution because they are also not planable. Today we can sail 2 races per day in a Format A event. The most of us are not in so good condition and 2 Format A-races per day are very hard to sail. With the new additional 27.1.2. we got the chance to sail a fair Championship when we can change from Format A into a Format B (see 34.3.7) with the specification "after 2 days only 1 race". The RC (race committee) is empowered to optimize the length of the courses in only this special situation. The Format B means also that we can sail 3 races per day. This new rule 27.1.2. make the Worlds much better planable!
